

Daily Fashion Hints

IF ONE MUST POWDER HER NOSE

At the party, or repair the Cupid's bow of her lips, the fuzzy looking little vanity bag will be a well-desired companion. The face, shown at the right, is painted on the calligraphic cover of the powder box and hidden in the inside is the lipstick container. Above in the center, a carved perfume holder.

ELSIE MAE EICHEN'S

ENGAGEMENT ANNOUNCED

Miss Kathryn Gallentine delightedly entertained the members of the J. B. I. Club last evening at her home in South Conneltsville. All members were present and spent the evening at fancywork and music. During the evening Miss Elsie Mae Eichen, a member of the club, to Morgan Brumbaugh. Miss Eichen is the only daughter of Mr. and Mrs. O. O. Eichen of Robinson street while Mr. Brumbaugh is the son of Mr. and Mrs. H. P. Brumbaugh of Wilkesburg. The engagement will terminate in a late fall wedding. Later a date for the wedding was served by the hostess. The next meeting will be held at the home of the Misses Clara and Beale Lechleiter on October 16.

Pythians in Session.

The regular weekly business session of the Pythian Lodge, Knights of Pythias, was held last evening in the Pythian Hall where a large number of members were in attendance. One application was received. Following the meeting the "Tomcats" held a session.

Married 35 Years.

Mr. and Mrs. John A. Colborn of Washington, D. C., celebrated the twenty-fifth anniversary of their marriage on Sunday, September 28, at their residence in that city. Saturday evening the Colborn home was invaded by delegations from various Washington Masonic orders, who took them a dozen silver sherbet cups, handsome silver tea set, and a box containing twenty-five silver dollars. One of the clerks in Mr. Colborn's office took a beautiful silver knife. Mr. Colborn, who is a son of Attorney L. C. Colborn of Somerset, raised a company there in 1893 for the Spanish-American War, but he was deprived of entering the military service due to a physical disability. Later on the occasion of one of President McKinley's frequent visits to Somerset, he expressed sympathy for Mr. Colborn and promised him an opportunity in Washington. He has been connected with the War Department ever since. He is chief of the Ordnance Department at the present time. Mr. Colborn's wife is a daughter of the late Ames W. Bruman of Somerset.

D. of A. Officers.

Officers for the ensuing year were elected by the daughters of America at the annual Somerset district meeting at Somerset. They are: District state deputy, Ross E. Fugle, Somerset; secretary, Mrs. Sadie Swank, Hooversville; treasurer, Mrs. A. E. Dwyer, Somerset. Mrs. Emma Gallagher of Hooversville, retiring district state deputy, presided at the meeting. Addresses were delivered by Mr. Eliechberger of Somerset, R. E. Fugle, Somerset; Mrs. Hattie Hooversville, Hooversville; Mrs. Wallace Eliech, Somerset; Mrs. Cora Gohn, Somerset; Mrs. A. E. Dwyer, Somerset; and Mrs. Sadie Swank, Hooversville.

Licensed in Uniontown.

Frank Krimel of Uniontown and Ethel Tassone of Carlisle were licensed to wed in Uniontown. Other couples granted marriage licenses were: Michael Procyk of Greensburg and Mary Bushko of Greensburg; Arthur Taylor and Norma Moore, both of Lamberton; Leo Jovan and Lois Florence, both of Isabella.

Dinner-Dance Postponed.

The dinner-dance planned by the Unity Fraternity for next Wednesday has been indefinitely postponed. It was necessary to abandon plans at this time because of the inability of a number of members to be accommodated on October 8. A regular meeting of the club will be held Monday when a Halloween dance will be considered.

Young People's Conference.

The annual Fayette County Young People's Union school conference will be held on October 13 and 14, at the Methodist Episcopal Church at Belle Vernon. Plans are being made to make this one of the most interesting and largest attended conferences in the history of the organization. The district superintendents throughout the county have asked the county officers by boosting the conference among the local churches. It is

desired that every district be well represented.

The program has been arranged along the four-fold line and the delegates are assured a good time along with the instruction and inspiration they will receive from the leaders.

Two of the state leaders who will be present are Rev. Edward H. Bonnell, Jr., Pennsylvania State Young People's superintendent from Philadelphia, and Miss Miriam Bonhard, former Young People's superintendent of Allegheny county, of Pittsburgh. Both are experts in Young People's work. Miss Bonhard being a graduate of the International Sunday School Training Camp at Lake Geneva, Wis.

On Tuesday evening a banquet will be served to the delegates and at this time songs and cheers will be expected from the district delegates.

All schools are urged to have their full quota present at the conference.

Entertain Church Society.

Mrs. E. E. Henderson and Mrs. J. B. Koster were hostesses last evening to the Church Work Society of Trinity Reformed Church at the home of the former in First street, West Side. Music and games were the amusements. Plans for the annual gathering, to be held in the church on November 20, were made. Lunch was served to fifty persons. The home was decorated for the occasion, Halloween colors prevailing.

Methodist Women Meet.

An interesting meeting of the Woman's Foreign Missionary Society of the Methodist Episcopal Church was held yesterday at the home of Mrs. J. B. Henderson in Cedar avenue, at which there was an unusually large attendance. Mrs. W. S. Robinson led the devotion. The lesson for the day was presented by several members. Mrs. E. E. Swartzwelder gave a report of the district conference at McKeesport in September. The business session included for the previous year. Mrs. Elizabeth Maest was received into membership. The next meeting will be at the home of Mrs. J. S. Dettler of Cedar avenue.

Greenwood Aid Meeting.

The Ladies' Aid Society of the Greenwood Methodist Episcopal Church met yesterday at the home of Mrs. David Long, with a large attendance of members and two guests. The latter being Mrs. Mary Lewis of Derry and Mrs. Lottie Crossland of Greensburg. Plans were made for an all-day sewing in two weeks at the home of Mrs. J. W. Kaufman. A number of articles were turned in for the bazaar.

Entertain at Party.

Mr. and Mrs. Daniel Lee of Mill Hill entertained at a party Tuesday evening at their home in honor of Miss Jean Whitley of this place. Fifty guests were present, and the evening was enjoyed in games and music. Delicious refreshments were served. Included among the guests were Mr. and Mrs. Philip Shipley and son, Eugene of Confluence.

Ladies' Aid Meeting.

The Ladies' Aid Society of the Methodist Protestant Church met yesterday afternoon and the regular business program was carried out. There was a good attendance.

SUNDAY RALLY DAY AT

CHRISTIAN CHURCH. Sunday will be Rally Day at the Christian Church. Superintendent, B. M. Swartzwelder has set 400 as the goal for the Bible school, which meets at 9:30 o'clock. There will be exercises appropriate to the occasion and something of interest for all.

Joint Meeting at Church.

A joint meeting of the Ladies' Aid and Missionary societies of the United Presbyterian Church was held yesterday afternoon in the church. Mrs. H. M. Thompson was in charge of the joint exercises. Mrs. George Reagan had charge of the quiet hour. The thank offering service will be on October 28. Canned fruit will be collected to be sent to the orphan's home. Refreshments were served by Mrs. Reagan.

Mozart Club Opening.

The opening meeting of the Mozart Club for the season will be held next Thursday night, October 3, at the home of Mrs. Clarence McCormick in Cedar avenue. The change was made for the season that Mrs. Elizabeth Stevens, who was to have been hostess, is away at school.

Westminster Guild.

National Chapter of the Westminster Guild will meet Monday evening at the home of Mrs. Elizabeth Patterson Harmon at 1143 Reed street.

Rutter-Morrison.

Announcement was made Thursday morning of the marriage of Miss Miriam Rutter, for the last two years telephone operator at the Fayette county courthouse and Miss W. Norcia of Uldewell, telegrapher in the Monongahela Railroad offices in Uniontown. The wedding was solemnized in Pittsburgh, by Rev. David M. Rowell, pastor of the First Baptist Church of Oakland, Pa., and Mrs. Morrison will reside for the present with the bride's parents in Grant street, Uniontown. Mrs. Morrison will continue her duties at the courthouse.

Licensed at Cumberland.

William Bowser and Jennie Chisholm, both of Uniontown, were licensed to wed at Cumberland, Md. Others licensed were: John Albert McCormack and Katherine Virginia Gettings, both of Greensburg; John L. Schrock and Melba A. Bannor, both of Rockwood.

Fancywork Club Meeting.

The Greenwood Fancywork Club will meet next Tuesday afternoon at the home of Mrs. Laura Hiers in Morrell avenue.

Christian Choir Rehearsal.

The choir of the Christian Church will meet for rehearsal tonight at 8 o'clock instead of the usual time.

Choir Leader Gives Talk.

Paul Carter, choir leader for the Conneltsville High School, gave a fine talk before the student body during the chapel exercises this morning. He urged attendance at games and participation in the cheering. An effort by the Cokers will be made tomorrow to have a better cheering delegation than yesterday, which school is reported to be bringing three street carloads of rooters to the game.

Abettor of Shank

Woman Convicted

FREDERICK, Md., Oct. 3. Harry C. Leatherman of Myerstown today was found guilty of aiding and abetting Mrs. Mary Shank in the kidnapping and feathering of Dorothy Grandon on July 21 near Myerstown. Leatherman refused to make any comment on the verdict.

Fund Sale.

The Royal Daughters Class of the Church of the Brethren will hold a fund sale October 1, 1925, in Joseph Hildow's Electric Store at South Pittsburgh street—Advertisement—Society.

Grim Reaper

ROBERT COCHRAN.

SALISBURY, Oct. 3. — Robert Cochran, aged 71 years, one of the oldest and best known residents of this community, died suddenly of heart disease at the Cochran home Thursday. He deceased is survived by his widow, Mrs. Elizabeth Cochran, and five children, David Cochran of Johnstown, John Cochran of State College, William Cochran of California, Paul, Irwin Cochran of Paterson, N. J., and Mrs. William Brown of Elklick.

JOHN J. DUFFY.

John J. Duffy, 49 years old, died at his home at Dunbar Thursday morning at 9 o'clock following an illness of Bright's disease. Mr. Duffy was born and reared at Dunbar and at the time of his death was an employee of the Pennsylvania Wire Glass Company. He is survived by his wife, Mrs. Isabella Duffy, three sons, Michael, at Dawson, and James and Edward at home; two daughters, Janet and Elizabeth at home; his mother, Mrs. Mary Duffy of Dawson, and three brothers, William of Duquesne, Edward of Danbury and Frank of Dawson.

A short funeral service will be held at the home Saturday morning at 8:30 o'clock, followed by high mass of requiem at the St. Aloysius Church at 9 o'clock. Interment will be made in the church cemetery.

DANIEL EDWARD WHITSELL.

Daniel Edward Whitsell, 64 years old, died at his home in Uniontown Wednesday morning from a paralytic stroke. He is survived by his wife and six children.

Giant Backers Place Little Money, Even With Odds Offered

By United Press.

NEW YORK, Oct. 3.—With reports of seven to five being offered by Washington fans in the capital city, betting commissions here said today that Giant backers have not placed as many bets as were expected.

Presumably odds in Wall street this morning were 11 to 10 on Washington to take the first game and the series. Giant supporters were asking 5 to 5, however, and little money was placed. The big betting rush is expected tomorrow.

One brokerage house reported a bet of one to 12 that Washington would take four straight. The first said it had plenty of money available to bet at those odds.

Children Are Ill if they won't play

Watch them carefully. You can forestall a serious ailment with a spoonful of Dr. Caldwell's Syrup Pepsin

WHEN you see a child moping, avoiding companions and toys and play, look at its tongue and you will usually find it coated—a reliable symptom of constipation.

Forthwith give a teaspoonful of Dr. Caldwell's Syrup Pepsin. It will operate in a few hours and the child will feel better again. If there is also feverishness, sneezing and sniffing give another teaspoonful the following night, to make sure that all danger is past.

It is perfectly unnecessary to give young children strong physics and cathartics as they are apt to set up a bad habit they will later find difficult to throw off.

A mild vegetable laxative like Dr. Caldwell's Syrup Pepsin meets all their requirements, and as it is pleasant to take you will find no difficulty administering it.

Experienced mothers learned its value long ago, for it has been on the market over thirty years, and Mrs. Josie Clark, Rocky, Ohio, and Mr. Charles Lewis, Blackwood, N. J., attribute the general good health of their families to the prompt use of Syrup Pepsin at the right moment. They have it constantly in the house, knowing they can relieve over night constipation, biliousness, dyspepsia, flatulence, headache, sour stomach, fever, colds and other disorders accompanying or due to a constipated condition of the intestines and bowels.

Free Sample Bottle Coupon

There are people who very rarely prefer to wait until before they buy it. Let them clip this coupon, fill their name and address to it, and send it to the Syrup Pepsin Co., 518 Washington Street, Monticello, Illinois, and a free sample bottle of Dr. Caldwell's Syrup Pepsin will be sent them promptly by mail. Do not include postage. Use free.

Get a bottle from your druggist today. Give it to any member of your family, young or old. If it does not come up to our promise your money will be refunded. It is our invariable guarantee.

Tries Kellogg's Bran—restores health after 12 years of intense suffering

"I wish to write that I have suffered for 12 years from constipation and have tried for 10 years a total of 25 years' suffering permanently relieved by Kellogg's Bran, cooked and kumblud.

Gentlemen:

For 12 years I had been troubled with indigestion caused mostly by constipation. Until about a year ago, I would suffer from 4 to 20 weeks at a time.

I happened to see your Kellogg's Bran in a store, purchased a package and got almost immediate relief. I am still eating the Kellogg's Bran every day.

The most wonderful results obtained with your Kellogg's Bran I will now relate. A gentleman who has been taking medicine for about 10 years for constipation

could not find anything to give him relief. Three weeks ago I advised him to try Kellogg's Bran. He had told him what wonderful results I had gotten from it. The gentleman in question purchased a box, and he told me that for the first time in ten years he is regular without taking medicine.

Years for success.

William Field, Jr., 55 Vulcan St., Northampton, N. C.

Eaten regularly.

Kellogg's Bran is guaranteed to relieve the most chronic case of constipation, or your money is returned. Eat two tablespoonfuls daily—in chronic cases, with every meal. The flavor is delicious. Try it in the recipes on every package. Made in Battle Creek. Sold by all grocers.

BRITISH PREMIER IS LOSING FAVOR WITH LABOR PARTY

Has Alienated Both Conserva-
tive and Radical Elements
in Organization.

TOO MUCH OF A DICTATOR

By J. W. T. MASON
(Written for the United Press)
Disunion within the ranks of the British Labor Party have reached serious proportions, and Premier Ramsay MacDonald may not be the head of the government again if the Laborites are returned to power after the end of their present term.
The MacDonald rule has been a one man dictatorship and has alienated both the conservative and the radical elements within the labor organization. The middle-of-the-road laborites who are neither conservative nor radical, are the only ones left who are heartily supporting MacDonald's methods of direction.
There are two rifts within the Labor ranks. The first has been caused by objections of Philip Snowden, Chancellor of the Exchequer, to the MacDonald policies in foreign affairs. Snowden strongly resented the form of MacDonald's negotiations with Russia, which gave the impression of a bolshevik victory over the British negotiations. The Chancellor of the Exchequer's position is in effect that of vice-premier, and Snowden believed he should have been consulted more than he was about the Russian treaty, which is in danger of being pulled out by the House of Commons. It comes up for discussion.

Like Woodrow Wilson.
MacDonald and Snowden are men of antagonistic temperaments. MacDonald has some of the characteristics of the late Woodrow Wilson in his impatience of advice and his desire to follow his own instincts in all affairs regardless of the viewpoints of others. Snowden has a far more brilliant mind than MacDonald, and, indeed, is the leader of the intellectuals among the laborites. His objection to being lightly dismissed by the Premier when weighty decisions are to be made, is shared by the others in the conservative group of the labor ranks. MacDonald has not acquired the ability to give polite consideration to intellectualist expressions while having his own way from the start, without challenge.
The same temperamental failing of the labor prime minister has driven from him the support of the radical members of his party, who accuse him of going over to the capitalists. MacDonald has not sold out to anybody; but being temperamentally in the permanent mood of approving of all of his own actions, he considers that because he has decided upon any course of action, therefore the action must be axiomatically right.

Radicals After Premier.
The radicals have been waiting to catch MacDonald in a compromising position, and they have succeeded in doing so over the incident of his acceptance of what amounts to a subsidy from Sir Alexander Grant, Bart. this year, followed a few months later by the grant of a baronetcy to Sir Alexander, which makes his knight-hood hereditary in his family.
The explanation of MacDonald is that first he received a motor car from Sir Alexander, and then accepted \$100,000 in preferred stock of Sir Alexander's cricket company to repay him to keep up the motor car. MacDonald's temperamental weakness is revealed by this defense. Having worked out in his own mind so outrageous a justification for the gift, MacDonald is naively incapable of seeing anything unusual or capable of arousing criticism in the incident of a Prime Minister taking money gifts while in office.

But, the radicals in the labor party cannot continue to put their faith in a leader of labor who accepts such presents from millionaires. MacDonald is supposed to serve labor alone and to take his chances of making his living by his own work, like all other workmen.
It is improbable that he will ever be able to regain the confidence of his followers who are now criticizing his motor car and its upkeep. Especially in the recent heavy fall because just before the fact of Sir Alexander's gift became totally known, MacDonald published a new edition of his book on Socialism, severely criticizing workmen for their materialism.

Great Rock Pressure Reduces Natural Gas

Rock pressure upon which the life of natural gas fields is based, is becoming constantly greater in West Virginia, according to reports received by the Pennsylvania Public Service Information Committee. That news affects many thousands of natural gas users.

Declining with a rock pressure of 150 pounds in 1919, the report made by geologists in 1925 shows a reduction of 86 pounds, a decline of 50 pounds in the four-year period and a total decline of 860 pounds since 1902. As rock pressure declines, the supply of this valuable fuel decreases.

The menace of the Steeples law that sought to restrict the exportation of West Virginia natural gas, has been temporarily removed, but the decline in a future supply in that state cannot be halted by legislative enactment, court decision or commission ruling. Geologists and natural gas experts point out that only sound common sense dictating a sensible, efficient use, with a value sufficient to compel careful and economic consumption will prolong the time that West Virginia gas will be available.

A Great Sale of Fine Upholstered FURNITURE

**Starts
Tomorrow
and
Continues
All of
Next
Week!**

Here is an event that will appeal to those interested in making their Homes more comfortable and attractive. Because every article that enters this Sale was designed and made with the clear understanding of the decorative requirements of modern Home interiors. And it is of Aaron quality throughout—guaranteed to give complete satisfaction.

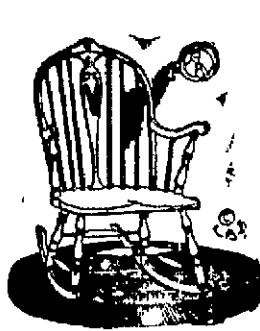

Complete Home
AARON'S
Furnishers Since 1891

ENCOURAGING THE HOME TEAM

The football games being played by the High School team afford an excellent opportunity for the people of Conneltsville and vicinity generally to show both their pride and interest in this institution as a most important factor in our community life.

The young men who form the team and others who have been eagerly training for places on it have a very proper right to expect encouragement in their efforts to give Conneltsville High the reputation of being a school where athletic sports are fostered, where clean games are always played and where there has been vigorous and healthy development of the school spirit.

No better form of encouragement can be given the members of the team, their coaches and the student body as a whole, than the presence at tomorrow's game, and others in the series, of the adult population of the city and suburbs. The youngsters will be there in force, of course, but for the grown-ups to turn out in large numbers, ready to cheer for the home team, and to laud each member to do his best, for the honor of Conneltsville and C. H. S., will be most helpful in its influence.

Incidentally the older folks will feel better for having taken a few hours off from the daily grind, relaxed a little and mingled as neighbors and loyal supporters of the home team. The members of the team will feel better, too, whether they win or lose, accepting victory with modesty and defeat with good grace.

AMENDMENTS "B" AND "C"

The second in the series of proposed Amendments to the State Constitution to be voted on at the November election, and designated "B" in the official proceedings, provides for the creation of another act under which the state may be authorized by law to issue bonds to the amount of \$5,000,000 for the purpose of acquiring and erecting and equipping buildings for the use of the Pennsylvania National Guard.

In this section, where both Conneltsville and Mount Pleasant have substantial armories for the use of the local units of the National Guard, the people generally cannot appreciate the need other towns have for these buildings. Often the military companies have quarters entirely unfit as well as too small and inadequately equipped for use as armories. This condition very seriously hampers the efforts to maintain efficient organizations.

Since 1908, when the State Armory Board was created, armories have been built as funds for that purpose were appropriated by the Legislature. The money thus made available has not been sufficient to meet the needs of all towns which are the home stations of National Guard units. The rate at which it has been possible to construct armories has been so slow, because of the limited appropriations, that many years will of necessity elapse before all the organizations can be properly housed under the existing method.

With a view to providing these buildings within as brief a period as possible, instead of extending the expenditures over a series of years under the present financial appropriation plan, it has been deemed expedient to finance the undertaking by authorizing the state to issue bonds.

These are the facts with respect to Amendment "B" which voters should consider in making up their minds as to how they will vote on it. Amendment "C" is designed to change the language of Sec. 10, Article III of the Constitution, relating to the form which shall be given to acts passed for the purpose of revising, amending, extending or conferring laws previously enacted. This amendment requires that no law can be revised or amended by reference to the title only. Instead, it is to be required that so much of the laws as are revised or amended shall be re-enacted and published at length, and the subject clearly expressed in its title.

The purpose of this Amendment is

LaFolletteism Is Socialism

By FRED R. MARVIN,
Editor Searchlight Depart., New York Commercial.
"Are You Being Fooled?"

Robert M. LaFollette and Burton K. Wheeler are the candidates of the Socialist Party for President and Vice-President of the United States. Many of their followers deny this statement. These followers, not knowing the truth, say they are the candidates of the Conference for Progressive Political Action, but the Conference for Progressive Political Action is merely another name for the Socialist Party.

By their company ye shall know them! Who are the individuals prominently backing the candidates of Robert M. LaFollette and Burton K. Wheeler? The list is a long one, but note these few:

Morris Hillquit, an "International Socialist," not born in the United States. Hillquit, in public addresses and in public writings, has expressed himself as opposed to the Government of the United States, frankly stating his purposes are to destroy this form of government in order to secure pure Socialism. They have pure Socialism in Russia now.

Victor Berger, denied a seat in Congress because of his disloyalty; convicted of violating the laws of the United States, but spared serving a term because of an error in the trial court, the man who roguishly said:

"LaFollette is a Socialist in everything but name. He has not voted the Republican ticket since 1904."

Eugene V. Debs, convicted and served a term for disloyalty to his country; an ardent admirer of Communist Russia; has said in public print that he is working to secure in the United States what they have in Russia; now chairman of the Socialist Committee which is backing LaFollette and Wheeler.

Frank P. Walsh, attorney for the Communists on trial for criminal syndicalism in Michigan.

Bill Johnson, chairman of the Conference for Progressive Political Action, once candidate of the Socialists for Governor of Rhode Island.

Sam G. Marshall, who is charged with having been the publicity agent for Ludwig C. K. Martens, the pretended Ambassador for Soviet Russia, who was deported from the United States.

Norman Thomas, Socialist candidate for Governor of New York. The full list such as these would cover many pages.

Now get the group idea. The following item appeared in the New York Times shortly after the Socialists had nominated LaFollette and Wheeler:

"Representatives of 300,000 Jewish Trade Unionists and Socialists, meeting in Forward Hall yesterday, endorsed the LaFollette-Wheeler ticket, and pledged themselves to devote their energies and money to the campaign. Four hundred and fifty delegates from the United Hebrew Trades and Jewish Socialist Alliance adopted resolutions from their organizations, and expect to raise more than \$500,000 for the LaFollette campaign."

There are many sincere, loyal American citizens following LaFollette and Wheeler. They are not allowed to know the inner workings of this campaign. They are being woefully deceived by the character of propaganda furnished them. They are not Socialists and do not want Socialism.

But the leaders are Socialists and are working for no other purpose than to bring about Socialism.

That's the kind of government they have in Russia.

(Copyright, 1924, by the Interstate Commercial News Service—All Rights Reserved.)

ing to remove ambiguity in revised or amended laws, it would appear desirable that it be approved.

CAPTAIN'S PROGRESS

The formal award of the Captain Glass Company of the contract to enlarge their plant by the addition of three large buildings, is most encouraging news to everybody in Conneltsville. It is the most substantial proof that could be given of the faith the ownership and management of this plant have in the future of Conneltsville and additional evidence of their appreciation of the treatment accorded them.

The increase of 50 per cent, to a total of 500 positions, in the number of employees, after the additions are completed means that opportunities for gainful employment will be provided 200 young men right here at home without the necessity of going some distance to find it.

The fact of the substantial enlargement of the plant will itself direct attention to Conneltsville as a desirable place in which to locate industries of every kind. It will show to the world outside that we have every facility essential to the successful conduct of enterprises and that their presence here is welcomed.

The management is to be congratulated on the progress the Captain plant has made and the prospects which insure its still larger growth.

The World Series is going to be a very serious affair for the would-be bribers among the Giants.

It is up to you to show the quality of your citizenship tomorrow by registering if you have not already attended to that duty.

Even if it is constructed of words the dam the State Supreme Court has built in the Indian Creek Valley is as permanent and secure as the concrete structure at Mill Run Junction.

Registration is the hall mark of good citizenship. Registration to vote in no less the sign of good citizenship.

Registration is the hall mark of good citizenship. Registration to vote in no less the sign of good citizenship.

WEIGHED IN THAN ARMAMENT

Just Folks

Edgar A. Guest.

FAMILY PRONICS.

In every family there are types. Each circle has its own. Its good-natured member and its misanthropic one. And one is this and one is that, one sinner and one rectifier. One travels and one stays at home, one paints, another writes. But not of these I choose to sing, the one who draws my rhyme. In that fond relative who plans the picnic every time.

I think she's part of every tribe, at least she's part of most. She loves to sit and eat her food beneath the lady house. A shoe box filled with hard boiled eggs, a jar of pickles and a chocolate cake that's crumbled down, and she'll sit there, mostly silent, and then you have her portion of conversation.

For this she plans it out, she thinks for many a summer night. I would not hurt her feelings to possess the world, and so. When she has used the time and place with all her might, I'll get it. It's not my notion, I confess of pleasure. Or I've said. At dinner time I like to have a room above my head. Now and then I end of her hot boiled eggs and butter in a cup. But if I failed to join the throng they'd say that I'm stuck up.

In every family, I suppose, there is a picnic fix. She plans these little summer takes

HOOPE & LONG

DESCENDANTS OF WAR HEROES WILL UNVEIL MEMORIAL

Doxen of Three-War Families
Sought for Anniversary Day
at Mt. Pleasant.

TROLLEY TRACK MOVED

Special to The Courier.
MOUNT PLEASANT, Oct. 3.—On Wednesday night the West Penn Railways Company moved its track in Main street, at the Diamond, so that there will be room for the memorial that will be erected on the Diamond. The street car track has been moved on a curve to the south side. Work is progressing rapidly on shaping up the Diamond, and now there is no doubt that it will be ready for the dedication, November 11.

The committee representing the three wars, composed of John Burkholder of the World War, Abraham Shawley of the Civil War and Edward M. Stevens of the Spanish War, called a meeting at the Legion rooms and invited 50 of the older people of the town, including Civil War veterans, to ask them for names of children between the ages of six and 14 years, who had ancestors in the three wars, Civil, Spanish and World, to unveil the memorial. The list has been extended as far as needed. Only two have been turned in, who have a direct line of ancestors. They are Lewis and John Harkins. Their great grandfather was in the Civil War, their grandfather, Dr. James S. Harkins, in the Spanish War, their father, Lewis Harkins, in the World War. It has been decided by the committee to use as many as 12 of the names, some in, and any person knowing any child or children with a direct line, is asked to send their names, and the war record of each relative to Dr. John L. Burkholder, Main street. This includes persons in the Mount Pleasant Draft District.

Rehearsals at Monessen.
The degree team of Julia Rehearsal Lodge went to Monessen yesterday afternoon and installed the officers of that lodge.

Class Holds Picnic.
The class of which Marie Rumbach is teacher at the Church of God went to the Kutz farm last evening and had a chicken and waffle dinner.

Pheasants Received.
The Mount Pleasant Hunting and Fishing Association yesterday received two crates of ringneck pheasants. They will not be liberated until after the open season.

Ended Love Trail of Man Who Played Fair

Alexander loved the ladies and he played fair with them. That is, he always proposed to them.

"I am so sorry," said Helena, when he proposed to her. "So sorry, but you see I am engaged to George."

Helena said "yes" promptly, when he asked her, but she was surprised when he reminded her of it the next time they met. "Surely you were not serious," she said. "Any way, I was not."

Dolly quivered close to him and whispered "yes"—but in the morning she had forgotten.

Anna Margaret promised to consider it and let him know, but she never did.

Mary Jane let him kiss her hand and she talked quite awhile about the beauty of love. The next week she moved away and left no address.

Henrietta was sure she could have loved him had she not already decided on a suitor.

There, the pretty divorcee, cried and wished she had met him first—before she lost her faith in men.

Billy was a sweet little debutante, and he thought he might as well be her first sweetheart. Alas, he was not. He only thought he was—but he was her last, for she married him, and that was the last of Alexander. Well, just about the last—Kansas City Star.

Many Legends Treat of Woman's Creation

Woman's first appearance has been a popular subject of legends. The Pagan myth of creation is founded on the story of Pygmalion and Galatea. There the first woman was carved out of ivory by the first man, and then endowed with life by Aphrodite, says the Kansas City Star.

The Greek theory of the creation of woman, according to Hesiod, was that Zeus, as a cruel jest, ordered Vulcan to make woman out of clay, and then induce the various gods and goddesses to invest the clay doll with all their own qualities, the result being a lovely thing.

The Scandinavians say that an Odin, Vili and Ve, the three sons of Bor, were walking along the beach they found two sticks of wood, one of ash and one of elm. Sitting down, the gods shaped man and woman out of these sticks, whitening the woman from the elm and called her Bruni.

Dan Cupid Busy Among Young Folks Of Somerset Co.

SOMERSET, Oct. 2.—Recent weddings in Somerset county are: Mrs. Ethel M. Havrel, daughter of Mr. and Mrs. Joseph F. Miller of Circleville, O., and Robert E. Scher, of Greensburg, married at Somerset by Adam G. Berkobit, clerk of the orphan's court.

Miss Esther Marie Mortz, daughter of Mr. and Mrs. William Mortz, of Husband, and Otto Marvin Hay, son of Mr. and Mrs. Jacob Hay, of Somerset township, were married at Zimmersburg by Rev. C. E. McCauley.

Mrs. Evaline Miller, daughter of Mr. and Mrs. Harry Zimmerman, and Joseph Ringer, son of Mr. and Mrs. Joseph Ringer, both of Somerset, were married at Somerset by Rev. Claude E. Servey.

Miss Irma Evora Brant, daughter of Mr. and Mrs. Joseph Brant, of Berlin, and Harvey Irvin Pyle, son of Mr. and Mrs. Calvin H. Pyle of Somerset, were married at Somerset by Rev. George L. Roth.

Miss Anna Bodnar, daughter of Mr. and Mrs. John Bodnar of Windber, and John Palya, son of Mr. and Mrs. John Palya of Semon, were married at Windber by Rev. John Lach.

Miss Anna Elizabeth Blank, daughter of Mr. and Mrs. William H. Blank, and Edward Alexander Campbell, son of Mr. and Mrs. Edward Campbell, both of Greensburg, were married at Somerset by Rev. George L. Roth.

Miss Violet R. Fay, daughter of Mr. and Mrs. Allen E. Fay, and Oscar City Bonty, son of Mr. and Mrs. William R. Bonty, both of Snytown, were married at Snytown by Paul A. Custer, justice of the peace.

Miss Mildred V. Gouder, daughter of Mr. and Mrs. Edmund Gouder, and Earl Allan Close, son of Mr. and Mrs. J. D. Close, both of Loswell, were married at Somerset by the Rev. George L. Roth.

Miss Mary Ruby, daughter of Mr. and Mrs. John Ruby, of Westmoreland county, and Edward H. Rhoades, son of Mr. and Mrs. Harry Rhoades, both of Westmoreland county, were married at West Newton by Rev. Noah Fehi.

Miss Helen L. Barnes, daughter of Mr. and Mrs. Carlton Barnes of Pottsville, Md., and Harry S. Swartz, son of Mr. and Mrs. John Swartz, both of Cumberland, Md., were married at Somerset by Rev. George L. Roth.

Miss Alice Pauline Waters, daughter of Mr. and Mrs. James Waters, and Paul Robertson, both of Mount Pleasant, were married at Somerset by Rev. Claude E. Servey.

Miss Pearl Edith Wright, daughter of Mr. and Mrs. Oscar A. Wright, and Raymond Albert Becker, son of Mr. and Mrs. Daniel S. Becker, both of Boswell, were married at Somerset by Rev. James S. Shannon.

Miss Rosella Alveria Delat, daughter of Mr. and Mrs. Frank W. Delat of Meyersdale, and Harry H. Pettis, son of Mr. and Mrs. John J. Pettis, of Garrett, were married at Meyersdale by Rev. H. L. Goughnour.

Miss Susie Singel, daughter of Mr. and Mrs. George Singel, and George Kuehner, son of Mr. and Mrs. John Kuehner, both of Central City, were married at Central City by Theodore Hoeselmay.

Miss Marywillow Naomi Barron, daughter of Mr. and Mrs. Albert W. Barron of Somerset, and Joseph F. Lamborn, son of Mr. and Mrs. Joseph A. Lamborn, both of Lumberville, were married at Hoversville by Rev. W. E. Sunday.

Miss L. Christina Robertson, daughter of Mr. and Mrs. James Robertson of Boynton, and Edith B. Platt, son of Mr. and Mrs. William C. Platt of Cleveland, Ohio, were married at Boynton by Rev. H. L. Goughnour.

How to Banish Piles

Thousands Bless Dr. Leonhardt, the
Physician Who Discovered This
Common Sense Remedy.

If you think that the surgeon's knife is the only method of escape from the misery of piles, it is because you haven't heard of the new treatment known as Dr. Leonhardt's L. M. Remedy.

The doctor's treatment is internal. By experimenting for years he discovered the exact cause of piles and then went further and compounded a remedy that would remove the cause.

Dr. Leonhardt writes every sufferer to be healed by his discovery, and so that there will be no doubting or delay Connellsville Drug Co. and all druggists are authorized to sell this remedy with guarantee that it will do as stated or money back.

On that honorable basis every sufferer should secure a package of Dr. Leonhardt's Remedy today—Advertisement.

VALUABLE PRIZES FOR WINNERS IN LIGHTING CONTEST

Large Array Placed on Display
by West Penn at
Scottsdale.

BISHOP MANN COMING

Special to The Courier.
SCOTTSDALE, Oct. 3.—The West
Penn has displayed in its show win-
dow in Broadway prizes to be given
in the home lighting contest. They
are:

For boys—First, bicycle; second,
alligator bag; third, tennis racket;
fourth, football; fifth, fountain pen;
sixth, holder's glove; seventh, Scout
knife; eighth, Scout axe; ninth, tenth,
eleventh and twelfth, pencils.

For girls—First, overnight bag;
second, manicure set, third, silk um-
brella, fourth, tennis racket; fifth,
fountain pen; sixth, three pairs of
silk stockings; seventh, beaded
purse; eighth, gold pencil; ninth,
tenth, eleventh and twelfth, pencils.
Prizes have been given by the fol-
lowing firms: West Penn Power
Company, Aerobell Electric Company,
Fuller Electric Company, J. I. Dick
and Loucks Hardware. The judges
are E. B. Glaser, chairman; J. Scott
Wasserman, Rev. W. M. P. Galvin,
Thomas H. Rutherford, C. Leo Mellinger,
E. F. Doolley, H. A. Rowe and
James Fuller.

Bishop Mann comes at St.
Bartholomew's Episcopal Church
here on Sunday morning. Rev. Alex-
ander Mann, bishop of Pittsburgh,
will administer the rite of confirma-
tion and will preach the sermon. All
members of the parish are urged to
be present and give the bishop a
warm welcome on his first visit to
St. Bartholomew's. This year
church school will precede the con-
firmation and sermon.

Marriage Announced.
Announcement is made of the mar-
riage of Miss Arlith Neth, daughter
of James Neth of Spring street, and
William Williams, also of this place.
They will make their home here.
Both are well known among the
younger set.

For Sale.

lights, corner of Mulberry and Grove
streets, known as the Methodist par-
sonage, \$6,000. E. F. DeWitt—Ad-
vertisement—3oct-3.

Juniors to Meet.
The Juniors of the First Baptist
Church, in charge of Mrs. Elmer E.
Williams, will meet at the church at
3 o'clock on Saturday afternoon. It
is hoped that there will be a good
attendance.

Baptist Rally Day.
Rally Day will be observed at the
Baptist Church during the entire day.

Movie Stars

Are Using These Face Powders.

By Edna Wallace Hopper.

I did not intend to supply powders to
women. My only idea was to furnish
them my greatest beauty help. But
thousands of women have loved me,
by letter and in person, to tell them
the powders I use.
Take all my
friends on the
stage and in
the movies. I
use very costly
powders. I
have them
made to my
order, and they
cost me \$5 per
box. Our ex-
cesses depend on
our looks, and
nothing is too
costly.

But I have
persuaded the
makers to offer
these powders at
ordinary prices. I
order them in quantities, under my
name. I offer them at my expense to
girls and women who desire the best.
Now all druggists and toilet counters
supply Edna Wallace Hopper's Pow-
ders. There are two kinds. For myself
I prefer a clinging powder, a soft cream
powder, based on my Youth Cream. It
is enduring. That Youth Cream
powder costs \$1. But many women
prefer a light and fluffy powder. If
you want that kind, it costs but 50
cents. Both kinds come in three
shades—white, flesh and brunette.
So far as I know, these powders are
the finest in existence. You may be
sure that if anyone produced a better
powder I would not let it out. Any-
one who uses common powders will
gain a new conception of what powders
should be.
Let me send you a sample. Just fill
this coupon and tell me the kind you
want.

Power in the Blood!

You will be compelled to admit that
the results of S. S. S. are
really amazing!

MAN'S GLORY is his strength—
yet how few there are who are
really as strong as they should be.
The blood thins, gets weaker, blood
cells wear out—general weakness and
a gradual break-down of the system
results.
We know there is one thing that
puts power in the blood, and that is
more red-blood-cells! S. S. S. builds
them by the million! We know that
as blood cells increase in number,
blood impurities vanish! But have
you ever actually taken advantage
of this wonderful fact? Thousands
just like you have never thought of
it. So-called skin eruptions—pimples,
boils, blackheads, eczema all pack up
and go when the tide of blood cells
begins to roll in. Blood cells are the
fighting plants of Nature. S. S. S. is
one of the greatest blood cell builders,
blood cleansers and body builders
known to us mortals. Here is your
opportunity! S. S. S. contains only
vegetable medicinal ingredients. Be-
cause S. S. S. does build red-blood-cells,
it cures rheumatism, builds firm flesh,
fills out hollow cheeks, beautifies the
complexion, builds you up when you
are run-down.

Start taking S. S. S. today and get
back that power in your blood!

S. S. S. is sold at all good drug
stores in the U. S. The larger size
is more economical.

**S. S. S. Makes You Feel
Like Yourself Again**

Sunday. At Sunday school the pri-
mary grades will have their own ex-
ercises. This is something new in
daily day services, but a very good
program has been arranged. The
morning church service will also be
a rally service. In the evening there
will be another.

U. B. Party.
The Christian Endeavor Society of
the United Brethren Church held a
salamanca party at the church last
evening. Refreshments were served
and a social hour was held.

Personal Mention.
Mr. and Mrs. Jesse Cook returned
home yesterday from a trip to Quebec
and also a tour of the New England
States.

For Rent—Furnished house, for in-
formation call 69-R.—Advertisement.

—Continued.
Henry Loetzler, who underwent an
operation at the Memorial Hospital at
Mount Pleasant, is reported resting
well.

The Ladies' Auxiliary of the Y. M.
C. A. will hold its first meeting of
the fall at the Y. M. C. A. on Monday
evening. The meeting is called for
7:30 o'clock in the lobby. Many in-
teresting subjects will be discussed.

Nearly Died on Birthday

"On my last birthday, eight months
ago, I had another close call. We
had just finished dinner. My stomach
began to hurt me, a minute later I lay
unconscious. Three doctors worked
on me. I was soaked with a cold
sweat when I came to. The next
week, telling a friend about it and he
advised trying Mayr's Wonderful
Remedy. Since taking a course of
your medicine I have been able to eat
anything. I have no more pains or
bleeding and am feeling better than
for ten years." It is a simple, harm-
less preparation that removes the
catarrhal mucus from the intestinal
tract and allays the inflammation,
which causes practically all stomach,
liver and intestinal ailments, includ-
ing appendicitis. One dose will con-
vince or money refunded. A. A.
Clarke and druggists everywhere.—

visiting his parents, Mr. and Mrs.
Thomas Knight.

James Doyle of Conneltsville was a
business visitor in town yesterday.

Bumstead's Worm Syrup

"The children are much better. When
the doctor told me that my little
daughter had worms, I was very
worried. I bought Bumstead's
Worm Syrup and gave her a few
drops. She is now healthy and
happy. I am sure it is the best
thing I could have done for her."
—J. C. A. York, M. D., Philadelphia.

BROOKHART, NOT DAWES, SHOULD GET OFF TICKET

Continued from Page One

As long as there are no Lorimer
bank controversies or other skele-
tons in the closet to be dragged out
against Coolidge, and nobody has
ever thought there would be, for the
record of the President is well known
and has been examined with a micro-
scope in all previous campaigns.
There will be relatively no ill effects
on this way from the attack on
Dawes. In some states it probably

will add a few votes to the LaFollette
column, but the chances are they
would have gone in that direction any
way.

The campaign in the mountain
states is slowly getting under way
but it has developed little excitement.
Reports from Nevada and Idaho in-
dicate that these states probably will
be with President Coolidge on elec-
tion day. There are no local issues,
which would give either state a com-
plexion different from what one finds
in the neighboring states of Wash-
ington, Montana, Oregon and Cali-
fornia. The whole Pacific Coast
region gives the appearance of being
solidly for the President.

What the situation is east of the
Rockies remains to be determined, for
as one turns toward Utah, Colorado,
Nebraska, Iowa, Kansas, Oklahoma
and Missouri there are local indus-
tries which may swing the pendulum
one way or another irrespective of
the drift of the whole region.

Large Hat of Brown to Have Call This Autumn

An attractive hat exhibited at a millinery show in New York is of velvet in the new crown brown shade, combining a melen crown with a large drooping mushroom brim.

avenue returned home during the early part of the week after visiting at the home of her mother-in-law, daughter, Mr. and Mrs. Franklin Curtis in Pittsburg.

Mrs. Mary Irwin of Dorcy is the guest of Mrs. Anna Lamm of the West Side.

Mrs. Lottie (Greenland) of Greensburg is visiting Mrs. David Long of Greenwood.

Mrs. F. R. Goldstone and son Ralph, have returned from Pittsburg where they spent the New Year holiday with Mrs. Goldstone's daughters, Mrs. Charles Ruben and Mrs. Harry Reich.

All Things Possible
Nothing gave Mrs. Jones greater pleasure than to think she had secured a bargain.

She came home from a sale one day and displayed her purchases, one being a hat which she had with the name "Offitloran" on it.

"What on earth did you buy that for?" said her husband when he saw it.

"Well it was so cheap," said Mrs. Jones, "I only gave a dollar for it, and I'm sure it must have cost two or three dollars."

"But why waste a shilling?" "Oh," she said, "it's just a hat, but I know how things will come in. For instance, you might die and I might marry a man called Offitloran!"

London Tit-Bits.

Bird Does Scavenger Work
The solitary bird is a voracious, eagle-eating bird Indian bird, sometimes 6 feet in height and 14 feet in wings, with a large head.

The skin of the head naked, and a penicillate appendage on the interior surface of the neck. The plumage is black, or ash-colored, and furnishes the maroon-colored of India. The adjacent feeds on frogs, fish, reptiles, etc., and is the scavenger of Indian towns. It derives its name from the central gravity with which it stalks along.

Turkish Name for Capital
Stambul is the Turkish name of Constantinople. It is specifically applied to that portion of the city—Constantinople proper—that lies south of the Golden Horn, as distinguished from the northern portion, lying on the north side. Stambul occupies the site of ancient Byzantium and contains the mosque of St. Sophia, the Seraglio and almost all the authorities to be seen in the city. Christian Constantinople is predominantly a commercial quarter. The name is written also Istanbul.—Kansas City Star.

Honored to Honor Schwab
HONOLULU, Oct. 3.—Charles M. Schwab, who once directed the vast operations of the Homestead steel works 30 years ago, will be the honor guest at a celebration under the auspices of the Chamber of Commerce October 10. In honor of Schwab the day will be turned into a sort of holiday with parades and speeches and receptions.

Negress Burned in Denial
JOHNSTOWN, Pa., Oct. 3.—Mrs. Albert Swartz, 32, negress, was burned to death in a fire that destroyed her home early today. She was asleep when the fire broke out and was overcome by smoke, friends believe.

Easy to See That
The young man had taken his grandmother to a picture gallery. She had never been in such a place before and according to her was very critical of all that she saw. Together they wandered round looking at the paintings with interest.

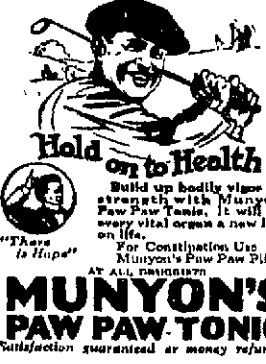

Finally they stopped before a canvas which showed a man seated in a high-backed chair. Tucked to the frame was a small white card.

"What does it say on the card?" asked the old lady.

A portrait of E. F. Jones, by himself, looked at her grandchild.

"What folks these art people must be!" she muttered. "Any fool can see that the man is by himself; there's no one else in the picture."

Tells Work of Statesmen
The Congressional Record is a journal of the proceedings of the Congress of the United States during from 1793. Prior to that date the Senate held secret sessions only, but thereafter publication was required, and in the case of "executive sessions." Record has been the title since 1875. Before that date the journal was entitled Annals of Congress (1793-94) for the House, and 1795-96 for both branches). Register of Debates until 1867, and through 1874 Congressional Globe.

Circular Effects Favored in Paris

Designers Show Wider Hemline by Using Plain, Flounce, Tunic.

Out of the maze of styles presented at the Paris fashion show, writers a fashion authority in the New York Herald-Tribune, it is evident that the slightly flared silhouette has come to share the spotlight with the slender outline that has prevailed during recent seasons.

The common characteristic of almost every silhouette, whether it be narrow or bouffant, is an increased shortness, the new skirt length being abbreviated at from 12 to 15 inches off the ground.

The new flared outline is sponsored by Chanel, Jenny, Doucet, Lelong, Molynex, Agnes, Maciel et Armand, Paquin and Chanel. Not all of these designers favor the wider hemline exclusively, and many of them include as many as three distinct silhouettes in their collections.

The methods of achieving the wider silhouette are numerous, and the only general point of agreement is that the bodice must remain extremely slender, and that the flare should be entirely confined to the lower portion of the skirt.

Doucet, whose frocks were worn by Dorian, a famous French actress, adheres strictly to the slender line from shoulder to knee, at which point the skirt flares suddenly into circular flounces.

Jenny favors the custom of years by the use of spiral darts and an occasional raised waistline. Agnes, who is among the most ardent exponents of the tunic, is featuring a definitely shorter skirt, length which emphasizes its fullness entirely and only at the front.

The silhouette accepted by Molynex is among the slenderest shown at the show, and he favors for its occasional flare upon loose lines which appear at the hemline of shirred and tunics.

Most enthusiastic of all the wider hemline advocates is Chanel, who has very conspicuously adopted the silhouette to the almost total exclusion of all others. Her silhouette is arrived at by three distinct methods—she uses the circular skirt, flaring plaits or a succession of tiers.

It is true that the flared outline has an imposing list of sponsors; but so, too, did the larger hats of last spring, which were subsequently turned down with very little ceremony by the ultimate arbiters—weddresses themselves.

What is certain is that this different silhouette will receive an immediate audience, particularly among those who have manifested impatience at the continued sameness of the mode.

After that, its fate depends upon the taste of the doubtful conservatives who look long before they leap can play safe by again adopting the perfectly straight outline, as its place is assured for another season at least.

Dusting Off an Old One
The hostess guest arose to speak, and was greeted with a cheer that shook the room. Some way or other, after that cheer, he never could get some of the guests quieted down again.

A half dozen or so of these isolated individuals, who were laughing and the speaker looked greatly annoyed.

Reaching for his gavel the toastmaster rapped upon the table for some semblance of order. But in his enthusiasm he rapped entirely too hard and the gavel broke in two. One piece bounced across the table and struck the sleeping member squarely on the head. He roused a bit, looked about him, and then shouted:

"That's again! I can still hear him!"—Journal American Medical Association.

Easy to See That
The young man had taken his grandmother to a picture gallery. She had never been in such a place before and according to her was very critical of all that she saw. Together they wandered round looking at the paintings with interest.

Finally they stopped before a canvas which showed a man seated in a high-backed chair. Tucked to the frame was a small white card.

"What does it say on the card?" asked the old lady.

A portrait of E. F. Jones, by himself, looked at her grandchild.

"What folks these art people must be!" she muttered. "Any fool can see that the man is by himself; there's no one else in the picture."

Tells Work of Statesmen

Furs to Be Rage for Winter Wear

Peltry More Important Than Ever Before, According to Fashion Writer.

It is going to be in the language of the modistes, a "fur season." Perhaps the tradition that a "white" winter will follow a "green" one, such as last winter, has stimulated interest in fur garments, says a fashion writer in the New York Times. In any event, furs are going to be all the rage, and the woman who wishes to secure the choicest things will wisely give the subject careful attention early.

A fur coat has come to be a more important article in the wardrobe of the well-dressed woman than before because the social order of things has materially changed. It used to be usual to have one fur coat—the piece de resistance—or to have at most one for daytime and another for evening wear. The time-honored sensibility for general occasions and an ermine wrap for evening fully equipped the old-time woman of fashion as to fur garments. They were for warmth, principally, and were adequate for the days of carriages and a gentler scheme of living.

Motors and long flights, however, at a stiff pace have made demand for a variety of protecting wraps. More and more fur is used for utility, beauty and luxury. The lady of affluence these days desires to change her fur wrap almost as she changes her gown. It is quite a common experience for a saleswoman in one of the smart shops to sell four or five costly fur coats to a customer at one time. This season's furs are more attractive, more unusual than have ever been shown, with many novelties in both the expensive and the inexpensive kinds.

Cloth Materials Are Used. Sontskin in all its varieties is still to be worn, but it is no longer smart as an entire garment. Some of the dressy coats and wraps sent from the Paris ateliers are made of satin, crepe and cloth with santonin introduced as a part of the skirt. In sleeves, deep collar, or in any one of several attractive ways, making a wrap of exceptional dignity and elegance. Mink is another staple among the handsome furs. It is especially good this season, and some of the new cloak coats, wraps and capes are superb—quite as popular with young women as with the dowager.

Perhaps the smartest among the dark furs is ermine. In the natural color and light dress this had a tremendous vogue last season, particularly in the chic little incoats which will be worn again this year. It is shown in many lovely novelty styles for younger women, in the mink and junior models. Baby lamb, brouillard and caracul, especially the fine, silky, "baby" quality are all fashionable, with the preference for caracul.

For a slender figure nothing gives an appearance of such smartness as a coat of black ermine, cut in one of the new straight loose-fitting models—a wrap that becomes a woman of the well-groomed tailored type. Beaver is another old-timer that is being made a feature of this year's styles. It was always considered a clumsy fur, rather

but leopard is exceedingly effective. Mountain sable is another new fur that is taking very well. It is a short, soft skin, a lovely shade of brown in this distinctly brown season. All the shades of brown seen in the furs emphasize the vague bohemian last spring when that color became so fashionable. In gowns, millinery and most of all in footwear. A combination of brown and black is the very last word in smartness.

Fur Trimming Is Popular. The fashionable coat that is not made of fur this season is trimmed with fur, and the newest ideas in

Coat for Street Wear—Caracul, With a Collar of Black Fox.

these are most engaging. The foxes are very good, especially in the natural color and in the short-haired variety, dyed in some shade of brown. Nothing has quite displaced fox for trimming coats of heavy fabrics—the English material, roder, and the tweeds. It is delicious to the touch, insistent and flattering, and is shown in large collars, cuffs and bands on some of the latest French models of coats and street gowns.

"Mink" is an absolute novelty, the name of which gives no clue to its origin, but it resembles a light brown fox, the hair being rather short and fine. "Baby" skunk is another brown fur that some of the Paris houses are using on some of their best coats and for trimming coat fronts and tailors. Krinmer is another one of the old-time favorites that are seen on some of the new wraps, though it is less popular than some of the unique furs.

Familiar furs bearing unfamiliar names are shown in great variety. Beaver-fur is one in which the beautiful cream and rich browns are blended in a subtle and most becoming manner. It makes the most adorable collars and bands for trimming the dressy type of wrap. An evening wrap of ivory brouillard of a quality like suede is charming, with a collar of silver-fur and ends of the fur applied to a skirt of chiffon attached to the neck.

"Palmis," another variant of the fox in a natural cream-brown shade, is a novelty fur much in demand for trimming the better class of coat or an elaborate wrap suitable for dinner. "Chitpunk," the brown coat of the little animal delicately striped with black; weasel, rabbit, squirrel in many varieties natural and dyed, are some of the furs offered an entirely new—a large assortment from which to choose. French squirrel is one of the latest furs much used on handsome coats and on gowns for afternoon and street wear. It is a fine textured squirrel, dyed a plinkish tan, an absolutely new shade that is very successful and shown on some advance style models in wraps of knish, velvet and satin.

Three-Quarters Length. The latest styles in fur coats are cut three-quarters length, very straight and tunic-like—a comfortable loose fit, with sleeves straight and rather wide, or in the lighter weight furs quite full. Some of the handsomest models have collars; some both collar and deep cuffs of a contrasting fur, though some of the most stylish coats are all of the one kind of fur.

Now, as heretofore, ermine is the most popular fur for evening and is shown among the new styles in the most sumptuous wraps—garments fit for an empress and costing a king's ransom. Imitations of ermine have lost some of their popularity, some women preferring to use some other fur than white for evening wear. Baby lamb lined with white satin and lined with metal brocade, and the new "peach" squirrel lined with pink and blue tissue make some of the most attractive wraps for elaborate dress

Minkskin, Old-Time Favorite, on Coat of Belge English Material.

attitude of treatment, but that was according to the tightly fitted idea of dress. The modern style of "lovely elegance" makes practical the handling of heavier kinds of fur. Beaver is most attractive in its surface, and the creamy tint in its color is universally becoming.

The variants of well-known furs, the revival of old favorites and the introduction of a larger variety of novelty furs are all interesting—especially the new fancy furs. The fashions in furs of the past two seasons have brought out an astonishing display of skins belonging to every sort of animal, wild and tame. No little heart has been thought too humble to furnish covering of furbings and some of the most common have been used for the most swifter garments. The latest styles this year show even more of them, and a most striking and some having to claim in attention other than their novelty or their blare effect. The names of the animal kingdoms are the greatest favorites of the furrier. It is leopard, which was so fashionable last year, and has lately been seen in collars and cuffs and as trimming on some of the sports coats. Is one of the most popular among the new models. In the fur grades it is shown for street wear and for motoring, and is very pretty in the smart jackets suitable for young girls. As a trimming on the coats of rough material and on many others

Connellsville Will Meet Jeannette High School at Fayette Field Tomorrow

Cokers Play The Town Team for First Time; "Easy," Visitors' Opinion.

LOCALS HAVE INJURIES

Tomorrow afternoon Connellsville High School will play one of the hardest games on its schedule. Fighting spirit will be a big factor in the clash and it remains to be seen whether the Cokers this year come up to the squad of last season in that respect.

The locals have been working hard this week in preparation for the contest tomorrow. Injuries, not of a serious, but of a painfully annoying character, have been sustained by members of the squad and has narrowed down the available material.

A stiff scrimmage was indulged in yesterday afternoon and, practically everyone on the field participated. The daily conflicts this week have been marked by persistent efforts of the coaches to instruct their men in how to take a man "out." Positions are well open and it is only a question of someone proving superior to the man holding the job at present.

Jeannette comes here tomorrow with a huge team body. The school has the notion it will carry off the W. T. A. League title this season and that belief has pervaded the student body with the subsequent result that his delegations accompany the team away from home.

The Coker rooting contingent will be out in large numbers and an interesting duel of wills is also anticipated.

DUNBAR TOWNSHIP WILL PLAY TODAY AT MT. PLEASANT

The Dunbar Township High School plays its second game of the year today at Mount Pleasant meeting the borough high school there. The game will start at 3:30 o'clock.

Michael Zeln, quarterback for the Dunbarites, who played a bang-up game last Saturday, is one of the best ground gainers in the county. He gained 121 yards in the first game of the season being the only individual to play through the line. He weighs 193 pounds and stands five feet 11 in. high. The high school depends upon him for the success of the team.

Although he developed a "charley-horse" in last Saturday's game, the ailment disappeared Monday night in the workout. His line plunging showing will be made by the team today. A scrappy bunch of football players will clash with the Mount Pleasant eleven.

South Brownsville will be the attraction at the Trotter field next Saturday afternoon, while the Mount Pleasant Township High School will follow.

S. CONNELLSVILLE INDEPENDENTS OPEN SEASON SATURDAY

The South Connellsville Independent football team will open its season tomorrow with Fairchance at May's field at South Connellsville, the game being called for 3:30 o'clock.

George Snyder is manager of the team, which promises a good showing. It has been working out under the coaching of Gladys Burkhardt and Jack Adams.

Other games scheduled, all away.

Reels, October 11.
Mount Pleasant Supertons, October 15.
Fairchance, October 25.
Bryce Brothers, Mount Pleasant, November 1.

If Connellsville High School players can use their heads tomorrow and keep their wits about them, they may spring a surprise on Jeannette. The Cokers have the potential strength but it hasn't been properly awakened.

Will there be a VICTROLA in YOUR Home this Christmas?

(See page 12 of this paper for full particulars.)

Helped Washington Win First Pennant

Leon "Goose" Goslin, left fielder and batting champion of the Washington Club, helped the Senators materially to win their first American League pennant.

BOWLING SEASON IS OFFICIALLY OPENED IN TRI-TOWN REGION

Two bowling matches were held last evening in the Cavalier Brothers Recreation Parlors, officially opening the bowling season for the year 1924-25. In the first match, the Vanderbilt All-Stars defeated the Dickerson Run Car Shop All-Stars two out of three games with a total of 1,777 against 1,718. In the second match, the Vanderbilt Aces took three this from the Nellie Ramblers with a total of 1,719 against 1,695.

The official opening of the season was to have been marked by electing an all-star bowling team from the Tough Valley, but the election was postponed until next meeting. Another match will take place next week and at that meeting the team will be named.

Steve Hobbs, of the Vanderbilt All-Star team, had high score for one game in the first match and also the best for the three games. He had a high score of 143 and a total of 435. Nick Cavalcante with a high score of 151 and a total of 454 helped materially in his team's victory.

"Murray McGraw" Malisky captained the Dickerson Run bowlers while Ralph Cavalcante was in charge of the Vanderbilt All-Stars. "Mickey" Fenchel had charge of the Nellie Ramblers. Nick Cavalcante managed the Aces.

WORLD SERIES WILL BE PLAYED-LANDIS

The world series opens tomorrow. Ben Johnson, president of the American League, and Barney Dreyfuss, owner of the Pittsburgh Pirates, have agreed in principle for the first time in years—but stating the series should be called off because of the scandal in connection with the effort of the New York Giants to bribe Heinie Sand, Philly shortstop, to throw a game in the series, played there at the close of the season.

Judge K. M. Landis, high commissioner of baseball, has already barred Jimmy O'Connell and Corv Dolan for participation, and says the series will go on. A further investigation is to be made. O'Connell says he and Dolan were not the only ones implicated and that he was made the "goat."

Sport writers in cities covered by the major leagues are denouncing investigation. They scoff at the idea that O'Connell, a mere recruit, would have sufficient funds to think of offering \$500 to Sand or that Dolan, who only draws a small salary as coach, would have reason or resources to make up the bribe. There is a higher up, they claim, and the clamor for his scalp is on.

Sports Notes.
Greensburg with its consistent razzing of Connellsville, announces to the public of Westmoreland county that Jeannette will have "soft" playing tomorrow, as the locals "live the wildest" team in years.

Connellsville High School plays at Scudville tomorrow.

he was talking about. The fans are still with the team and are confident that before the season gets much older the team will get under way.

With unfavorable weather prevailing with increasing frequency, tennis is having a hard time to struggle to a complete finish. There should still be some good playing days left, however.

All members of the Celtic football team will meet this evening at DuShane field where they will elect a captain and a manager for their squad.

All-Star Team From Eastern League Named

The sporting editor of the Springfield Union has selected the following all-star Eastern league team: Catchers—Schauffel, Watertown; Ritchie, Albany; Pitchers—Fortuna, Springfield; Ditch, Watertown; Graham, Worcester; Owens, Hartford; Kamp, Pittsfield; Thornehill, Albany. First Base—Post, Springfield; Second Base—Hershey, Springfield; Shortstop—Malone, Hartford; Third Base—Schmidt, Hartford; Outfielders—Webb, Pittsfield; Gault, Albany; Emmerich, Worcester; Utility—Rones, Springfield; Kenna, Hartford.

Diamond Notes

Barney Friberg continues hitting the ball hard.

Bob Coleman has renewed his contract to manage San Antonio next season.

The Chicago White Sox and New York Giants will sail about October 15 for their exhibition tour of Europe.

Lester Bell, Milwaukee shortstop, whom the St. Louis Cardinals have a string on, is hitting .415 for the Brewers.

Walter Beall, crack pitcher of the Rochester International league team, has been sold to the New York Yankees.

Claude (Paddy) Blake, who was with Utica until that club went on the financial rocks, has been signed by Toronto.

Gene Layden, for the past two seasons with Canton, Ohio, has been reinstated by Commissioner Landis and has joined the Cincinnati Reds.

Lou Gehrig, Hartford slugger, has been recalled by the Yankees. He was returned last spring after making a fine showing in the practice games.

Shortstop Michaels, who worked this summer in Little Rock, has reported to the Cubs. He was with the club last spring when it trained at Catalina Island.

Jim Truener, former Holy Cross baseball player, and Hugh McGivney of Notre Dame have been signed to play with the New York National league baseball club.

Pitcher O'Neill who has been with Longview of the Dual Texas league all season, has joined Houston. He is a right-hander and won seven and lost seven with Longview.

Buddy Williams of the Dattiesburg club, infielder of the Cotton States league, has been sold to the Columbus (Ohio) club of the American association.

If Babe Ruth intends to play exhibition games on the Pacific coast in the fall he will have to obtain consent of all American league club owners, according to Commissioner Landis.

Kansas City has purchased outfielder D. W. Shannon from Terre Haute of the Three-I league. He is twenty-four years old, a right hand batter and thrower and has been hitting the ball hard.

Cleveland has returned pitcher Andy Messenger and Frank Wynneberg to the Michigan-Ontario league. Messenger made a fine impression in a few games he worked, but lacks experience.

Every Man Fancies the NEW FALL CLOTHES

It is a fact that the new clothes for men now on display at this store excite their fancies and are the cause of much pleasure for those who wear them.

Men's Suits

Men! We want you to see the new suits we have for you—the very latest styles tailored by Michaels-Stern and Society Brand—see the new London Lavenders, Walkersburn and Island Lavenders—suits that we know are shown only here. Made with the new English cut, wide shoulder models with the huge trousers. Poudra Blues, Grays and Tans are featured. Priced from

\$30 to \$50

Top Coats

The newest styles in all colors and shades that are worn by real men—men who know the secret of smart dress—are here displayed in Topcoats for Fall. All are reasonably priced at

\$25, \$30, \$35

Mallory Hats

In the Mallory Hats for Fall the man finds every wanted style being worn this season. Hats that are nationally known and respected for their true style, quality and fine attention to details. Let us show them to you for we surely have a shape to suit you. Priced at

\$5

4-Piece Suits

For Boys

Mothers and Dads! Give your sons one of these smart 4 piece suits—suits with a coat, vest and two pairs of trousers. The latest thing in suits for boys. Made of fine woollens and tailored by Sampeck and other well known makers. Gives to the boy the incentive to be well dressed now and will create an appearance that later on will distinguish him and be a constant aid to his advancement.

Neckties

A new collection of attractive neck wear made by Cheney, Silks and Wool in all desired stripes and color combinations. Priced at

1.50

Wear one of these smart new hat wing Bow Ties if you want to look your best. A regular 1.00 value offered special at

85c

Garters

All the widths and colors wanted are shown here in the Boston and Paris Garters. Either with single or double grip and lowly priced from

35c to 1.00

Interwoven Hose

Wearproof Hose for Men

Fine quality mercerized Hile hose with double heel and toe. All shades for fall wearing and guaranteed to give longest wear. Three pairs for

1.00

Another new and very popular hose is this fine ribbed art silk hose stocked in all shades and lowly priced at

50c

For a popular priced dress hose we offer a neat silk and Hile heather mixed hose of excellent quality made by Interwoven. Per pair

75c

Shirts

Men who see these attractive shirts of fine madras or English Broadcloth take to them like ducks take to water. With every shirt comes a collar to match the stripes and coloring of the shirt. All sizes and special at

2.95

Pajamas

On such nights as these a pair of warm flannelette Pajamas is the best insurance possible against the cold. White or colored stripes with silk fancy frog trims and with pockets in the jacket. All sizes.

"THE MAN'S STORE"

115 West Crawford Ave.

The New Men's Store of the Wright-Metzler Company

PHILIPPINES HAVE RICH DEPOSITS OF VARIOUS MINERALS

Include Gold, Copper, Iron,
Manganese, Zinc, Hard
and Soft Coal.

PRODUCTION IS LIMITED

Gold, copper, coal, iron, manganese, zinc, chrome and gypsum are among the principal mineral resources of the Philippine Territory.

Gold mining, especially in the Benguet region, has been developed on a commercial scale, the Benguet Consolidated mine being a profitable and growing enterprise of this nature. It is a cyanide mill, two others being operated in the Aroroy district of Masbate. One dredge is in operation in the Pangasinan district and another in the Lungsod, Surigao province. Progress is also being made on new prospects in Aroroy, says a recent report of the Philippine Bureau of Science. Abundant gold deposits exist in several regions yet to be thoroughly explored. The year 1923 shows increased gold exports over 1922. Gold exports totaled \$1,653,838 as against \$1,455,856 in 1922 while 1923 ore exports were valued at \$27,766 compared with \$16,172 the year before.

Scattered deposits of coal are found in various portions of the Archipelago, with actual operations in progress on Batan island, Cebu, and on the Sibuyan Bay Peninsula, Mindanao. The government, through the National Coal Company, operates the coal mines, the Sibuyan Bay property presenting comparatively large deposits of bituminous and semi-anthracite coal. The present coal production, the report states, is less than ten per cent of the possible production under extensive development.

Iron ore is being produced in small quantities in the Agutay region, Butuan province, a short distance north of Manila. Important deposits are also found on Calamian island, Camarines Norte province, and in the vicinity of Davao Bay, Surigao province, the latter being of laterite iron, resembling that of Nipa Bay, Cuba. Reserves at Davao Bay are estimated at 500,000,000 tons.

While extensive copper deposits exist in the islands, there has been no production of this mineral during American occupation. Copper is found in the Marikina region, Mountain province, and on the islands of Marinduque and Masbate. The Marikina deposit is an important one and development work on it has been going on steadily. Sufficient hydro-electric power for mining purposes could be developed in the immediate vicinity of the latter district, the bureau of sciences report says. The principal drawbacks to commercial production of copper are lack of cheap power and of adequate transportation facilities.

Manganese deposits are found in Ilocos Norte, Pangasinan, Tarlac, Masbate and Tawitawi. There are lead and zinc deposits in Marikina, Masbate and Cebu, and chromite deposits in Antique, Panay and Zamboanga. Gypsum deposits in Batangas province are being worked to supply the necessities of the Cebu Portland Company.

Experimenting With Oil to Replace Coke in Blast Furnaces

That oil can be used as a fuel in blast furnaces seems to have been demonstrated on a somewhat limited scale in Rumania. It is pointed out as being a new departure. It has been adopted at a blast furnace plant in that country with results which, after many annoying and somewhat worrisome difficulties in the early stages, are reported to have proved entirely satisfactory.

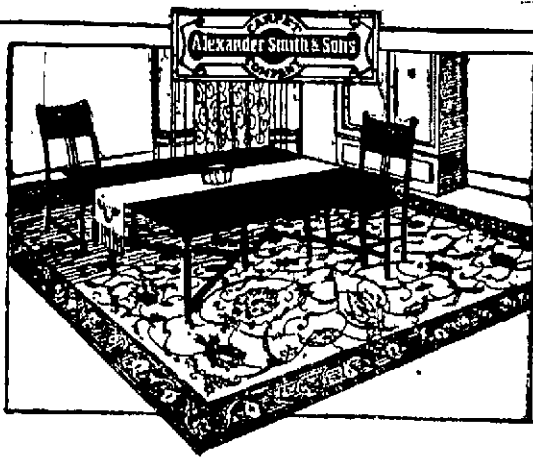

The furnaces are of 150 tons capacity and local petroleum residues (mazout) are used. The mazout is pulverized by being blown from the tuyere boxes into the furnace, at comparatively low pressures. The nozzles are jacketed with pipes through which the blast, which serves as the air for combustion is delivered. More exact details will be forthcoming shortly; in the meantime it may be said that approximately 16 per cent of the coke charged with the burden is saved.

As coke is exceedingly dear in Rumania, and mazout an almost valueless waste product, the economies effected by its use are, it may well be believed, considerable. Metallurgists will await with interest further particulars, as the injection of fuel at the tuyere makes a vast difference in the functioning of the furnace. Not only are the usual zonal reactions complicated, but the composition of the furnace gases is radically altered. The calorific value of the latter is said to be greatly improved.

Extensive Coal And Iron Deposits Found by Canadians

These quantities of excellent bituminous coal were reported to have been discovered in the Arctic regions to the north of Canada by the Canadian government expedition which has returned to Quebec.

According to F. D. Henderson, of the Northwest Territories and Yukon branch of the federal department of the interior, there is little doubt that almost unbelievable quantities of iron and other minerals exist in this region. The dominion government is continuing the research and will soon make reports on the huge treasures of coal and mineral ore it believes to have been discovered.

ADVERTISE IN OUR CLASSIFIED COLUMNS

No matter what brand of baking powder you use, you may have success with your baking today—but what about tomorrow or next week. Uniformity—unfailing success every day in the year—that's the biggest mark of merit a leavener can have—and that's the very thing that has made Calumet Baking Powder the preferred bake-day aid of America.

If you doubt the unusual quality of Calumet, make a test—bake a cake with any baking powder you may select—then use the same recipe and employ Calumet.

This very test has caused millions upon millions of women to turn from a baking powder they had used for years—it has proven to them that the "Best by Test" leavener is the purest that money can buy. For better bakings—day in and day out—use Calumet.

American Women Aware of Big Benefit Protective Tariff Has Proved to Home

THEY KNOW THAT WAGE EARNERS CANNOT FIND WORK TO KEEP THEM BUSY IF COMPETITION WITH CHEAP FOREIGN GOODS IS ALLOWED

This is the third of a series of five articles by Mrs. Helen T. Hart, vice-chairman of the Republican National Committee, and chairman of the Women's Division of that committee. Mrs. Hart discusses what she considers vital campaign issues from the women's standpoint.

BY MRS. ALVIN T. HART

The average American family is happy and prosperous today. The average American boy and girl have a new and comfortable home. For this we are all grateful. Every man and every woman who works a job should have one. There are fundamental laws of supply and demand. There are basic economic principles which must be satisfied before a job can be provided for the man who can fill it. The women of this country have demonstrated their ability to see to it that the real facts underlie any business problem. They are not misled with the half-truths which are frequently presented to them in their arguments.

It has been said frequently that women are the purchasing agents for the \$5,000,000,000 in the United States. This is true, but before they can purchase for these families, they must have money in their pockets. Women refuse to accept the statement that what the United States needs is free trade in order that we may buy cheaply the products of other countries. How can we buy unless the wage earner of the family has a job and is earning money?

There are two sides to this tariff problem, the buyer and the seller. Under the Democratic one-sided theory of low tariff on imported goods, this country has suffered the worst pains of unemployment. With this system at work, American women have known what it means to be unable to buy bread for their children. At the same time, American men have known what it was to tramp the streets looking for work.

As an interesting and significant contrast, we should bear in mind the fact that under a Republican protective tariff law the prosperity of this country has been such that women have been able to spend \$10,000,000,000 per annum, or nearly 10 per cent of the national income, upon retail purchases.

Four years ago when the Republican party came into power in this country there were 6,000,000 men out of employment.

This condition of affairs is a decided contrast to the situation in August, 1914. Industry has known a great revival and agriculture is beginning to reap the benefits of restored prosperity. Wages have increased and complaint of unemployment is at an end.

President Coolidge in accepting the Republican nomination for President on August 14 last, said: "As a source of revenue the tariff surpluses all expectations in producing an annual return of the unprecedented sum of about \$500,000,000. A fiscal policy which places a large and much needed revenue in the public treasury while stimulating business to a condition of abounding prosperity defends itself against any criticism. Its merits are demonstrated by its results. We have protected our own inhabitants from the economic disaster of an invasion of too many foreign people of too much foreign merchandise."

This average American working man is accustomed to high wages and his family is accustomed to a higher scale of living than is possible for the family of any other working man in the world. He knows that it is of no avail to have goods on a department store shelf marked at a slightly lower cost if he is unable to earn the money to buy them. The Republican party's record shows that it has continually advocated a protective tariff.

The Democrats charge that a

protective tariff keeps out the competition and destroys competition. It must be clear that even if a Republican protective tariff law did keep out importations, the inevitable effort would be to create new American enterprises of like character and thus increase domestic competition to even greater proportions than foreign competition is diminished.

A recent writer stated that a tariff law "which affords every advantage to foreign sellers in the American market to the detriment of American labor and industry can hardly be said to benefit this country. Here in America we know that we must produce and earn before we can spend and consume."

A tariff law which diverts American money from the payment of American wages to the payment of foreign wages cannot possibly benefit the American working man. The women voters of this country have heard President Coolidge recount the large revenue which has come to this country with the present protective tariff in women's shoes.

They know that unemployment has been ended. They know that there is a job for every man in this country. Women know that they have more money in the family pocketbook to purchase comforts for their families when manufacturers are encouraged to manufacture goods which they can sell at a profit and thus give employment to men and women who want to work.

This question of the tariff is far reaching and every thoughtful woman must understand that it is tied up in all directions with the income which the head of the family is able to earn. Every woman knows that it is vitally important that her husband should have an adequate income. Altogether the tariff demands of women this year a thoughtful answer when they go to the polls in November to cast a vote for the best interests of their families and the communities in which they live.

(C. 1924, Western Newspaper Union)
"There are more persons who worry about matters that do not concern them than there are who are anxious to do well the duty of the present moment. If we would simply do always the next thing, we should be relieved of all perplexity. The law of divine guidance is 'step by step'."

GOOD FOODS

A dainty dessert which is not too filling but most satisfying is:

Peach Souffle.—Take two table-spoonsful each of butter and flour, mix and cook, add one cupful of milk, a pinch of salt and one-fourth of a cupful of sugar, flavoring with a few drops of almond, and one cupful of chopped peaches with three egg-yolks, adding one at a time and beating well, then fold in the stiffly beaten whites and pour into a mold; set in hot water and bake half an hour. Serve with peaches finely chopped, powdered sugar, a little butter, all well mixed and blended with a little almond flavoring.

Prune and Peanut Cake.—Take one-half cupful of butter, add one cupful of sugar, one and three-fourths cups of flour sifted with two teaspoonsful of baking powder, two eggs, reserving one white for the filling, and one-half cupful of milk. Mix and beat well, bake in two layers.

Filling.—Beat together one cupful of sugar, one-half cupful of water until it forms a thick paste. Pour the hot syrup over the stiffly beaten white of an egg, beat until thick, then add one-half cupful of chopped peaches, one-half table-spoonful of lemon juice and one-half cupful of prunes cut into fine pieces. Beat until thick enough to spread.

Watermelon Rind Preserves.—Take the thin green skin from the rind of the watermelon and cut into thin strips, removing all of the pink portion. Place the rinds in cold water to which a tea-spoonful of alum has been added with a quart of water. Let stand ten hours or overnight, then rinse and steam until tender. Prepare by using three cupsful of the rind to two of sugar adding lemon and candied ginger for flavor; add just enough water to start the flow of juice and cook slowly until clear.

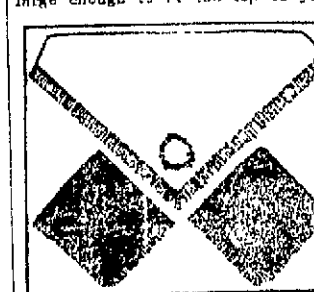

The cream, when living near a commercial supply, is always an acceptable dessert which may be varied by sauces, nuts and syrups.

Nellie Maxwell

Tea Set Easy to Make and Easy to Launder

You will be surprised to see what a delightful tea set can be made out of plain cotton crepe. The beauty of it is that it is so easy to make and to launder.

Out of cotton crepe cut six squares each twelve inches square. With pen mark off lines two inches in from each side. Draw out the edges as far as the pencil lines. Cut a square large enough to fit the top of your

This Dainty Tea Set is Made of Cotton Crepe.

table, allowing four inches on each side. Mark off lines three inches in on each side. Draw the edges in as far as these lines. You may make all the squares and the cloth of the same color or two different colors may be used. With silk or mercerized thread of a color to match the crepe, over-stitch the edges to prevent the material from fraying any further. A set like this makes a pretty gift—Kansas City Star.

Whole Costume of Brown or Rust, Fall Fashion

The whole costume of brown or rust will find a good many buyers this fall, says a fashion writer in the Kansas City Star. Perhaps it will be a three-piece affair or a heavy coat over a frock of light-colored material. The show-lines of winter coats have a snug fitting number of longhair skirts in rust, brown, or black and some in a soft hunter's green. These are really for midwinter and are especially lined with fur and always trimmed with lovely fur.

With such coats as these the longhair skirts, dark undergarments will match and the hat likely will be all in the same tone, perhaps with a touch of fur, velvet or a ribbon or maybe with one of the pretty colored ribbons that are large enough to be quite a point in the hat's make-up.

Loved to Hear Herself

"Did that girl I saw you with find anything to talk about?"

Tom Moore's Visit to
This Country Recalled
Thomas Moore's visit to Niagara
and other parts of Canada in 1804 is
recalled by a Niagara reader of the
Toronto Globe.

"It is a bit hard to believe," says
visiting the house Moore lived in at
St. Ann's. An old French gentleman
who took us to the house told us that
few Canadians seemed to know that
Moore had lived in Canada for many
months and written a number of
poems and songs while here. He
quoted 'The Whirlpool' and said it
was written at Niagara. The old
house of Martin McEllin (who was
killed while saving the guns May 27,
1812), now owned by Mr. Decker, was
the house from which the smoke so
gracefully curled for it was the only
house whose chimneys could be seen
from Fort George."

Moore collected poems contain a
group of his compositions while in
America, passing through the eastern
states to Buffalo, Niagara falls, Ni-
agara, Montreal, Quebec and Halifax.
It is evident from his poems and his
poetic introduction that it was not a
very happy visit, though a poem like
"The Canadian Boat Song" is a wor-
thy fruit of his impressions. When he
took ship at Halifax his farewell poem
referred to "Chill Nova Scotia's un-
promising strand" and there are refer-
ences to what he considered the
crudity of the New world.

How Malays Get Fire
From Compressed Air
The inhabitants of the Malay penin-
sula have a method of obtaining fire
which is probably unique among primi-
tive peoples. They utilize the prin-
ciple that the compression of air
raises its temperature, one known to
every man who has ever pumped up a
tire, but one which it is most surpris-
ing to find in the possession of a
group of aborigines.

A tiny pump of wood, hardly more
than three inches in length and with
a bore of about half an inch, is used,
says the New York Times. The pump
is open at one end, closed at the other.
In it fits closely a plunger equipped
with a round knob at one end and a
plate-like expansion at the other.

The piston end of the plunger is
dipped in tinder, which the native cur-
ries in a moth's cocoon, which makes
an absolutely waterproof container.
The piston is placed in the pump and
the knob struck sharply.

The compression of the air raises
the temperature to such a degree that
the tinder is ignited, and when the
piston is withdrawn it is found to be
glowing. The native blows on the
glowing mass, inserts it into his ready-
made fuel, and presto! he has his fire.
This method is quicker by far than
the friction method used by most
primitive races.

Man's Chief Interest
She had gone out to dinner with her
sister. She had felt in particularly gay
and sprightly mood, and had talked,
she felt, quite entertainingly of this
and that. Many had been the amus-
ing incidents she had told.

But toward the end of the evening
her sister seemed very dejected and
unhappy.
"What has been the trouble? Did
anything happen today to make you
blue?" she asked. Surely the evening
had been a success.

"No, the day was a very good one,"
he said.
"But tonight? Haven't you enjoyed
it?" she asked, surprised.
"Well," he returned, "you know a
man likes to talk about himself when
he takes a girl out, and you haven't
given me a chance all evening."

Men and Women in the News of the Day.

Adelina Rolfe, a woman with dark hair, wearing a dark dress.
Charles E. Hughes, a man with dark hair, wearing a suit and tie.

Countess Salma von Hoegenstraten, the former Millicent Rogers,
New York who created a sensation when she eloped with the impetuous
Austrian nobleman and motion picture actor, has given birth to a baby
boy in New York. The Count, from whom her father separated her, is
Europe, and it is said there will be no reconciliation. Secretary of State
Charles Evans Hughes will take charge of the general campaign of
Theodore Roosevelt. Republican nominees for Governor of New York
State. This picture of George A. Christian is being used by the New
York City police in a nation-wide search for the abducting member of
the Stock Exchange firm of Day & Houston, who is alleged to have ap-
peared with \$2,500,000 of the firm's money, causing its failure. Federal
Courts having ruled that an adopted child of an American citizen cannot
share exemption under the immigration laws. Ella Island Immigration
Station, New York City, have deported the sixteen-year-old son of Mrs.
Adelina Rolfe, though admitting her into the country. Paul Rolfe, veteran
of the A. E. F., had married Adelina Rolfe and legally adopted her son,
but that did not get him into the country.

GULBRANSEN

The Registering Piano

Real Piano Music—on the Gulbransen

The Gulbransen Registering Piano is an instrument played by music-roll and pedals, that you can play in a musical way, with all the expression and feeling you have.

To play what you will—when you will—when you will! To give full rein to all your undeveloped musical talent.

Just think what this means to you who have never learned to play by hand, or having once learned, have not had the time or opportunity to keep in practice! No tedious finger-ling! No long study!

Just think what the Gulbransen means to that musically-promising daughter—to that growing young son—to live in, and share in, such musical, homebuilding influence.

Real piano music! Yes. But, make this test yourself—

Try any simple piece on the Gulbransen. You will be delighted at the musical results you can get—so natural and pleasing. Then try an operatic air, or something more classical. You will be agreeably surprised how wonderfully well you can play! Whatever kind of music you prefer—popular, semiclassical or classic—you will positively marvel at the personality and life you can put into anything and everything you play on your Registering Gulbransen.

International Labor Unions
Excluded From LaFollette
Convention All Except
Own Followers.

RADICALS IN POWER
BAN SOIL TILLERS

Blacklist Includes Their De-
fenders in Congress.

LaFollette was entered in the race for President by an aggregation of national and international labor unions. The public, and particularly the farmer, had no voice whatever in his so-called nomination. There has existed for over three years an organization known as the Conference for Progressive Political Action, composed of 18 national and international labor unions, the majority of them railway labor organizations.

The officers of this Conference for Progressive Political Action are on the whole the national and international officers of the labor organizations composing the conference. The chairman of the conference is the well-known William Johnston, president of the International Machinists' union, and the director of the railroad strike in 1922. Mr. Johnston was recently candidate for governor of Rhode Island on the Socialist ticket. The headquarters of this conference is in the Machinists' building, Washington, D. C., a building owned by the International Machinists.

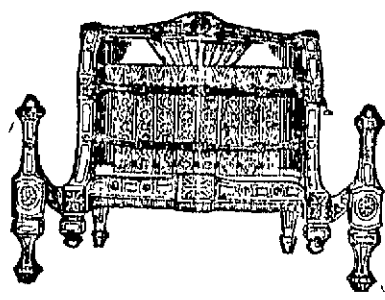

This conference held its annual meeting in St. Louis in February, 1923, adopted a platform, pledged itself to launch a third party, and adjourned to meet in Cleveland July 4 for that purpose. The convention in Cleveland on July 4 was therefore nothing but the adjourned meeting of the Conference for Progressive Political Action. The delegates to the Cleveland convention were merely delegates from the labor organizations comprising the Conference for Progressive Political Action, plus a few scattering delegates from the Socialist party and a few radical organizations such as the League for Industrial Democracy. The Conference for Progressive Political Action established its own rules regarding whom it would admit as delegates and these rules were so framed that no one not in hearty accord with the views of the labor organizations comprising the conference was admitted. Out of approximately 1,000 delegates, less than 25 were farmers or representatives of alleged farmer organizations.

The officers of the Conference for Political Action were the officers of the convention. William Johnston, Socialist leader, was the temporary and also the permanent chairman. After organizing the convention, a resolution was drawn up and sent to Senator LaFollette asking him to lead in a fight for a third party. Not a single farmer or representative of a bona fide farmer organization signed this petition. The so-called platform adopted at this convention offers absolutely nothing to the farmer. It consisted practically altogether of a recital of the alleged grievances of organized labor and a demand for the enactment of their legislative program. Not a farmer was a member of any of the committees of this convention, neither the committee on resolutions nor credentials. The chairman of each of these committees was an official of some international labor organization. The personnel of these committees were either officials high in international railway labor organizations or officials high in the Socialist party, and other radical organizations.

The convention went on record in behalf of the candidacy of LaFollette. LaFollette was officially notified of his nomination by a committee appointed by Samuel Gompers of the American Federation of Labor and no member of this committee was a farmer. LaFollette acknowledged his nomination in the form of a letter addressed not to the people of the United States or the farmers of the United States, but to the American Federation of Labor. The campaign committee handling the LaFollette-Wheeler movement is the National Committee of the Conference for Progressive Political Action, plus a number of Socialists. The addition of Socialists to this committee was demanded by the Socialist party as the price of their support of LaFollette. This demand was made at a meeting of the committee held in Washington July 21, at which time representatives of the Socialist party were present and insisted that they be given 10 per cent of the committee. Their demand was granted. There is an executive committee of 10 handling the inside staff of the LaFollette-Wheeler campaign. No farmer is on this committee. The campaign headquarters of the LaFollette-Wheeler movement is 408 Machinists' building, Washington, D. C.

The Conference for Progressive Political Action issues a weekly publication known as Labor. The farmer has no part in it. It is arranged and edited wholly by representatives of labor organizations. It is their official campaign publication.

Real Heating Comfort

For real heating comfort every home requires auxiliary heat—ever-ready warmth to help out your furnace on bitter, winter days—economical warmth sufficient in volume to keep your rooms properly heated in Spring and Fall when a furnace fire would be wasteful.

INSTANT SERVICE KEEPS THE AIR FRESH AND PURE

All this is yours with a Welsbach Heater, plus a quickness of action no other heating device can give. No matches are needed. Just a turn of the gas cock, a twist of the self-lighter key, and like magic the glowers fill with flame. The whole face of the heater becomes tinged with a wonderful glow, giving a luminous, brilliant effect that is beautiful to see. Instantly out floods the cheeriest warmth you've ever felt.

Clean, healthful and odorless, it is radiant gas heat at its best. Like rays from the sun, this glorious warmth cannot be dodged by air currents, but passes through them like ambience through a pane of glass. Like a stream of summer sunshine, Welsbach Heat quickly warms everyone it reaches, yet keeps the air fresh and pure.

Here's the answer to your heating problems, here is the means of getting the extra heat you need in the quickest, cleanest, most economical way. There's a Welsbach Heater here for you—in the size you desire, the design you like and at the price you want to pay. The prices range from

Getting Too Fat? Try This—Reduce

People who don't grow too fat are the fortunate exception. But if you find the fat accumulating or already accumulating, you will be wise to follow this suggestion, which is endorsed by thousands of people who know. Association of Dietitians and Nutritionists. One dollar is the price the world over. Get them from your own drugstore or send money direct to Marmole, 25 General Motors Bldg., Detroit, Mich. By doing this you will be able to reduce steadily and easily and pleasantly, without starvation diet or tiresome exercise. Start today, then, today and get slender. Advertisement.

Daily Fashion Hint

SHEN DOES NOT TIE ON HER COAT for the simple reason that coat and frock are one, the frock being no more than a panel of gray and blue crepe de chine, ending in black satin for hem. Three Wors, and gray crepe de chine for shoulders, cape, together with cuffs of blue and gray make a harmonious ensemble.

We Tell You So!

There are no set speeches in our Used Car Department. Every car has its own history, its own limitations and its own advantages. We tell you so—and even the inexperienced buyer knows at once that he can count on square treatment.

A Few of This Week's Offerings

Oakland Touring
1923 model. In good mechanical condition. Has good tires and paint.

Oakland Sedan
1924 model. This car is in excellent condition. Has had the best of care and can be bought very reasonably.

Jewett Sedan
1923 model. Paint and tires very good. Has had mechanical adjustments. Price very low.

Essex Touring
1924 Model. Just made mechanical adjustments. Tires and paint in good condition. Price right.

Ford Touring
1923 Model. Don't blame us if you are walking when you can buy a car at the price we ask for this one.

Ford Coupe
1921 Model. Here is your opportunity to own a good Ford coupe. Mechanically perfect, good tires and paint.

Some of Our Commercial Offerings.

NASH
Nash Leads the World in Motor Car Value

A National Tribute to Nash

7,800 Cars Oversold
Despite Record-breaking Output

Though Nash production is at the highest level ever attained

—still the demand from every section of the country for these new Advanced Six and Special Six models has swept sales to a point so far beyond the best previous mark that unfilled orders total 7,800 cars.

Nothing that we might say could add the weight of a straw to this irrefutable evidence that men and women everywhere do see clearly in these new cars unparalleled excellence and value.

Happily, with increased output unreasonable delay is eliminated for those who act with promptitude in placing orders.

And deliveries will be made on the rotation basis which is fair to all.

In the meantime—October 5th to 12th is national Nash Oversold Week in honor of the extraordinary success of these new models and we are staging a special exhibition.

THE FINEST FRUITS NOW

The harvest season for the country's more important and finest fruits is now on. Our stores will be stocked regularly from carloads arriving every few days at our several distributing points. Every Fall more and more people look to us for their supplies of all varieties of apples, grapes, pears, peaches, plums, etc.—the fruits so universally used for canning, preserving, for making butters, jellies and jams, as well as for table use.

Prices depend upon the market, of course, but are always as low as it is possible to sell first class grades. The advantage, too, of large quantity buying make a difference. Our nearest store will deliver your purchase.

The Paramount

"A FIGHTING HEART"—The much-heralded "A Fighting Heart," at the Paramount today and Saturday, has apparently taken the picture world by storm, as it marks the introduction to screen patrons of Frank Merrill, the world's champion athlete. This powerful superman has brought to the screen countless thrills never before experienced by picture devotees. His uncanny achievements in the athletic world makes him an ideal picture personality. "A Fighting Heart" is the first of his superman series which Hercules Pictures Productions Company is filming, and is to be followed by five more of the most thrilling comedy dramas that ever graced the screen. The great athlete is supported by a powerful cast of favorites, including such favorites as Margaret Landis, Otto Lederer, Alphonse Martell, Kathleen Calhoun and others. The picture is in the prize for "A Fighting Heart," which is said to be the year's greatest thriller. Local fans will, no doubt, turn out en masse to see it.

The Soisson

Picture tells why men leave home. Why do men leave home? Even the judges of the divorce courts are not qualified to answer that question because the truth is seldom a major part of divorce testimony. In John M. Stahl's latest First National picture, "Why Men Leave Home," which is at the Soisson today and Saturday, the director gives a perfectly plausible reason for so many matrimonial disasters. He has told the story with a frankness and simplicity which cannot fail to impress, yet he has told it in such a humorous and charming manner that it is offensive to neither sex and never approaches a preachment or lecture. The principal parts are interpreted by an all-star cast of celebrated players, headed by Lewis Stone, Helene Chadwick, William V. Mong, Mary Carr, Alma Bennett and Heida Hoppe.

The Orpheum

"WOMEN WHO GIVE"—Joseph Dowling, rated as one of the finest character actors on the screen, plays a leading role in Reginald Barker's new Metro picture, "Women Who Give," at the Orpheum today and Saturday. Mr. Dowling plays the role of Captain Blomah Keeler, an ancient but hearty ex-seaman, who divides his time between rummaging, whittling and dodging the little odd jobs resorted to him by his industrious wife. Keeler is an admirable character for Mr. Dowling, who makes him a kindly, whimsical, old duffer whom no one could help loving. Born and reared in Pittsburgh, Joseph Dowling was educated in that city. He began his career with the Grand Opera Stock Company at an early age and soon was playing principal roles in such productions as "Henry the Fifth" and "The Red Spider."

The Arcade

The same basis of judgment that a tailor uses in making a suit of clothes, namely, satisfy the customer, is the basis on which pictures should be made, so believes William Duncan, chapter-play star and director for the Universal Pictures Corporation. Duncan's latest picture, "Wolves of the North," is an example of this method of reasoning. "Some time ago," said Duncan, in discussing this picture, "I made a cross-country tour, making personal appearances in many of the theatres. On these appearances I requested the audiences to express their desires in the way of pictures. Sometimes I was answered from the house, but in the majority of cases my invitation to write me at Universal City was accepted. Thousands of letters were received, and these were classified and a general average was struck."

"Wolves of the North," an epic of life in the Canadian wilderness, is one of these, and it shows that the most part the men and women of the United States, no matter how remote their own lives, have the appreciation for the strenuous, raw existence that their forefathers led and which is being led today in the far reaches of this continent. "It is true that some of these stories may not appeal to a certain class, but neither does Shakespeare appeal to the majority, and what the owner of a motion picture theatre desires is something that will keep his house filled by persons who go away feeling that they have had the entertainment they desired." At Arcade today.

After Illness Get Strong Again With Cod Liver Oil

Every schoolboy as well as every grandmother, knows that Cod Liver Oil is a great strength creator and body builder—the best on earth. But sick folks won't take the nasty, disgusting, horrible smelling, stomach upsetting oil and who can blame them?

And thanks to science—they don't have to—for now at all drug stores in America you can get 50 McCoy's Cod Liver Oil Tablets for 60 cents.

and before you have taken one box you will know why all the doctors praise Cod Liver Oil and tell you that it is chock full of vitamins that build you up, make you strong and wonderfully aid digestion.

If you want to feel fit and fine all the time put your faith in McCoy's Cod Liver Oil Tablets—the original and genuine—as easy to take as candy—and money back if they don't help you.

Ask Connellsville Drug Co., A. A. Clarke, or any real druggist about them. Mrs. T. Frady, West Orange, N. J., writes: "I have been using McCoy's Cod Liver Oil Tablets and they have been helping me wonderfully."—Advertisement.

Sensational Sale of New Antiseptic Breaking Record

Now that you have had such a wonderful sale of Kojene the last few weeks why not again tell your friends and customers what a wonderful discovery it is?

By so doing you can help many ailing ones and prevent hundreds of others from becoming ill.

Science continues to progress and now it has given us Kojene, the new and only antiseptic known that is neither poisonous, alcoholic, irritant or caustic.

And this non-poisonous antiseptic, so harmless that you can drink it, is four times as powerful as carbolic acid.

Yes, and more powerful than the bicarbonate of sodium.

Let's go a little further with this new antiseptic that physicians, surgeons and dentists are talking about. Please tell your customers that it is seventy-five times more powerful than a destroyer of germs than most of the popular flavored antiseptics and mouth washes now in use.

Go further and tell them that it is so powerful that one simple teaspoonful will make a whole tubful of the most effective and pleasant mouth wash money can buy.

A sixty cent bottle will make one-half gallon—Yes! one-half gallon of a better mouth wash than the high priced, ready to use kind.

And while you are talking about the world's most wonderful antiseptic Kojene—tell them about a few of the many things it has the power to relieve.

Sore throat and tonsillitis will disappear overnight. In a week chronic nasal catarrh will be a thing of the past. Old sores, ulcers, boils, carbuncles and blemished skin will clear up in minutes.

Kojene and that itching skin that drives one almost mad—two days' treatment is enough.

And that's all—except that women who believe in cleanliness will be glad to know that Kojene will do any thing but any other antiseptic will do and do it better.

Another thing—Kojene has only the most healthful effect on delicate membranes which cannot be said of harsh, poisonous germ killing agents.

A 60-cent bottle for 60 cents—and we almost forgot to say that you can save any purchaser the sixty cents back if he or she is not delighted with Kojene.—Advertisement.

Although Coke Market Is Dull and Without Tendency To Change, Prices Hold Firm

Still Too Low, Operators Contend, in Relation to Cost of Production.

CONTRACTING CONCLUDED

Fourth Quarter Price Firmly Established at \$3.25; Spot \$3.00 to \$3.10; Foundry Demand Light, Heating Make Slow Increase; Iron Dull.

Special to The Weekly Courier. PITTSBURGH, Oct. 1.—The coke market is dull and at the same time is very firm in price. There is nothing in the situation that could be expected to make an appearance of the market having either an advancing or a declining tendency, but at the same time it is clear that any changes that may occur in the underlying conditions would all lie in the direction of stiffening prices.

Present coke prices are regarded by coke operators as altogether too low in relation to cost of production. The market simply cannot get down to the present level and it requires something definite to lift it out of its rut. However, something has been accomplished on the operators' side in the past three months in that a fourth quarter price has been firmly established at \$3.25, while three months ago the contract price was practically down to \$2.00.

A few moderate sized tonnages of furnace coke have been sold to steel companies for delivery over the month of October at prices ranging from \$3.00 to \$3.10, the tonnage in the aggregate not being large.

Contracting for the fourth quarter was concluded some time ago, except as little furnace may in future have changed price since the middle of July, while basic has not changed since the middle of June. Foundry iron received an advance of a dollar a ton late in August, but buying at the advanced price has been so light that the market has yielded, some sales having lately been made at \$18.50. Valley, though it seems that small lots of particular brands still being sold. The market is now quotable as follows:

Rescove \$25.00
Basic \$25.00
Pittsburgh \$25.00
These prices are f. o. b. Valley furnaces, freight to Pittsburgh being \$1.75.
Monthly averages of pit iron prices since the beginning of the year have been as follows: at Valley furnaces:

January \$22.50
February \$22.50
March \$22.50
April \$22.50
May \$22.50
June \$22.50
July \$22.50
August \$22.50
September \$22.50
October \$22.50

Spot furnace coke remains quotable at \$3.00 to \$3.10, ordinary furnace lots usually going at the \$3.00 figure, while old lots for other purposes sometimes bring up to \$3.10 if of particularly good quality.

Foundry coke remains in light demand, but production is in accordance therewith and there is no particular selling pressure, so that prices are easily held at former levels, and the market is quotable the same as a week ago:

Spot furnace \$3.00 to \$3.10
Contract furnace \$3.25
Spot foundry \$4.00 to \$4.50

Demand for heating coke has been increasing slowly for more than a month, as it should do at this season of the year, but is hardly up to normal at this time. Production is correspondingly light, resulting in a responsive market, and rather a high one, by precedent, compared with furnace coke. Most of the plants producing medium sulphur coke for non-ferrous metal use are out, and this source of supply, usually a large one, is quite restricted. Almost week by week there have been some firm drawings, including some from furnace ovens, but these have been absorbed rather readily. Then there are certain plants which are producing foundry coke, but with the light demand for foundry coke these are far from heavy. The market for heating coke is quotable at \$2.85 to \$3.00, or up to the furnace coke price, suggesting that possibly the demand for heating coke is in excess of the production of what is ordinarily considered heating coke, so that some of the demand is being met by furnace coke.

Monthly averages of spot coke prices have been as follows since the first of the year:

January \$3.00
February \$3.00
March \$3.00
April \$3.00
May \$3.00
June \$3.00
July \$3.00
August \$3.00
September \$3.00
October \$3.00

The Pittsburgh district coal market continues its failure to reflect any improvement in prices as a result of the generally reported increase in demand. Production in the district seems to have doubled since last June, but the turnover in the spot market seems to have increased but little, and prices are largely over as much as formerly. Slack alone has

JOE JUDGE

Joe Judge, one of the best first basemen in the game, helped the Washington Senators win their first American League pennant.

been showing fluctuations in price in the past few months, the latest movement being a decline of about 10 cents in the past week. Pittsburgh district slack being now quotable at \$1.00 to \$1.10 for steam and \$1.10 to \$1.20 for gas.

The pig iron market has continued very dull, buying being light in all grades. Rescove has been at an unchanged price since the middle of July, while basic has not changed since the middle of June. Foundry iron received an advance of a dollar a ton late in August, but buying at the advanced price has been so light that the market has yielded, some sales having lately been made at \$18.50. Says—Now Stiff Joints Must Go!

New Discovery Limbers 'Em Up and Even the Creaking Ceasars.

Yes, it's true—the world progresses.

All you have to do nowadays to limber up that stiff, rusty knee joint is to squeeze a half inch of miracle working substance from a tube. Then rub it on the creaking part for about a quarter of a minute or until it soaks through the skin and disappears on its errand of mercy. Then read the evening newspapers and go to bed.

The chances are that your misbehaving knee joint will lose its "creak" while you are dreaming about the high fences you used to leap when you were a youngster.

And in the morning," says one who has tried the new discovery, you'll feel so happy that you'll want to jump into your sportiest clothes and walk briskly down the street just to show the neighbors that you are not so old as they think you are.

Joint-Ease calls this wonder working substance that is the reason that when ordinary remedies fail to limber up the stiff, inflamed rheumatic joint, or reduce the swelling, Joint-Ease succeeds.

It's a good name for a good, clean, penetrating prescription that in a few months has proven to a multitude of people that lame, swollen, distorted joints can speedily have the kinks taken out of them and work as smoothly as ever.

Joint-Ease is for both men and women, whether in knee, ankle, hip, shoulder, spine or finger, and for that purpose its sale is immense.

Union Drug Co., Connellsville Drug Co., has a big supply of it and druggists everywhere report a big demand.

Always remember, when Joint-Ease gets in joint agony get out—quick—Advertisement.

Better Refractories Needed in Furnaces

A cooperative agreement has been made between the Department of Interior and the conditions under which they are used, their life in operating practice under the conditions prevailing at different plants and the way in which the refractories now marketed fail to meet these conditions.

The purpose of the survey is to obtain fundamental data to be used in bettering refractory service.

With the present high ratings at which boiler plants are being operated and the increasing use of pulverized coal with its attending high temperatures, the refractories now available for lining boiler furnaces are proving inadequate. In this survey a study is being made of the characteristics of refractories now available for use in power-plant boiler furnaces, and the conditions under which they are used, their life in operating practice under the conditions prevailing at different plants and the way in which the refractories now marketed fail to meet these conditions.

The purpose of the survey is to obtain fundamental data to be used in bettering refractory service.

With the present high ratings at which boiler plants are being operated and the increasing use of pulverized coal with its attending high temperatures, the refractories now available for lining boiler furnaces are proving inadequate. In this survey a study is being made of the characteristics of refractories now available for use in power-plant boiler furnaces, and the conditions under which they are used, their life in operating practice under the conditions prevailing at different plants and the way in which the refractories now marketed fail to meet these conditions.

The purpose of the survey is to obtain fundamental data to be used in bettering refractory service.

Relief in One Minute.

CORNS

Now—get relief in one minute from corns, calluses and bunions with Dr. Scholl's Zino-pads. They remove the cause—friction and pressure. Thin, easy to apply, antiseptic, healing. Three sizes. Nothing so quick and sure. At your druggist or shoe dealer.

Dr. Scholl's Zino-pads

"This one on—the pain is gone."

OCT. 3-29

—THE MORE I THINK OF IT THE MORE I REALIZE WHAT A BOOE I WAS THREATENING TO LEAVE HOME IF THE WIFE BOBBED HER HAIR—JUST IMAGINE!

—SHE'S GOT A PERFECT RIGHT TO CUT HER HAIR IF SHE WANTS—IT'S HER HAIR—HA—HA—I HAVE TO LAUGH AT MYSELF FOR SAYING SUCH A SILLY THING—OF COURSE I WOULDN'T LEAVE HOME ON ACCOUNT OF A LITTLE THING LIKE THAT

—WELL—I DID IT!

HEY—TAXI
